Choice Based Credit System (CBCS)

The University Departments adopted the credit based semester system (CBSS) in 1997-98 and moved Choice Based Credit System (CBCS) pattern from 2001-2002 onwards.

Choice-Based Credit System is a flexible system of learning. *'Credit'* defines the quantum of contents/syllabus prescribed for a course and determines the number of hours of instruction required. The distinguishing features of CBCS are the following:
It permits students to

* learn at their own pace
* choose electives from a wide range of elective courses offered by the University Departments
* undergo additional courses and acquire more than the required number of Credits
* adopt an inter-disciplinary approach in learning
* make best use of the expertise of available faculty

Courses

A programme consists of a number of courses. A 'Course' is a component (a paper) of a programme. Every course offered by any University Department is identified by a unique course code. A course may be designed to involve lectures / tutorials / laboratory work / seminar / project work / practical training / report writing / Viva voce, etc or a combination of these, to meet effectively the teaching and learning needs and the credits are assigned suitably.

An academic year consists of two semesters.

Odd Semester (I and III Semesters)   : July to November

A semester normally extends over a period of 15 weeks. Each week has 30 working hours spread over a 5 day week. Credit requirements for M.Phil., P.G., P.G.Diploma, Diploma and Certificate course:-
