Click on check & verify column (self verified check box)

There after the candidate needs to press **“Save and Final Submit”** button

Then the candidate needs to **“Pay the online Registration Fee”** of Rs 200 through internet banking, debit card, credit card etc.

After payment of registration fee, there would be preliminary Verification of candidate's uploaded documents. During this process the documents uploaded by the candidate would be compared with the details filled by the candidate by ITI officials. This process would normally take around 2 working days after filing of application by the candidate.

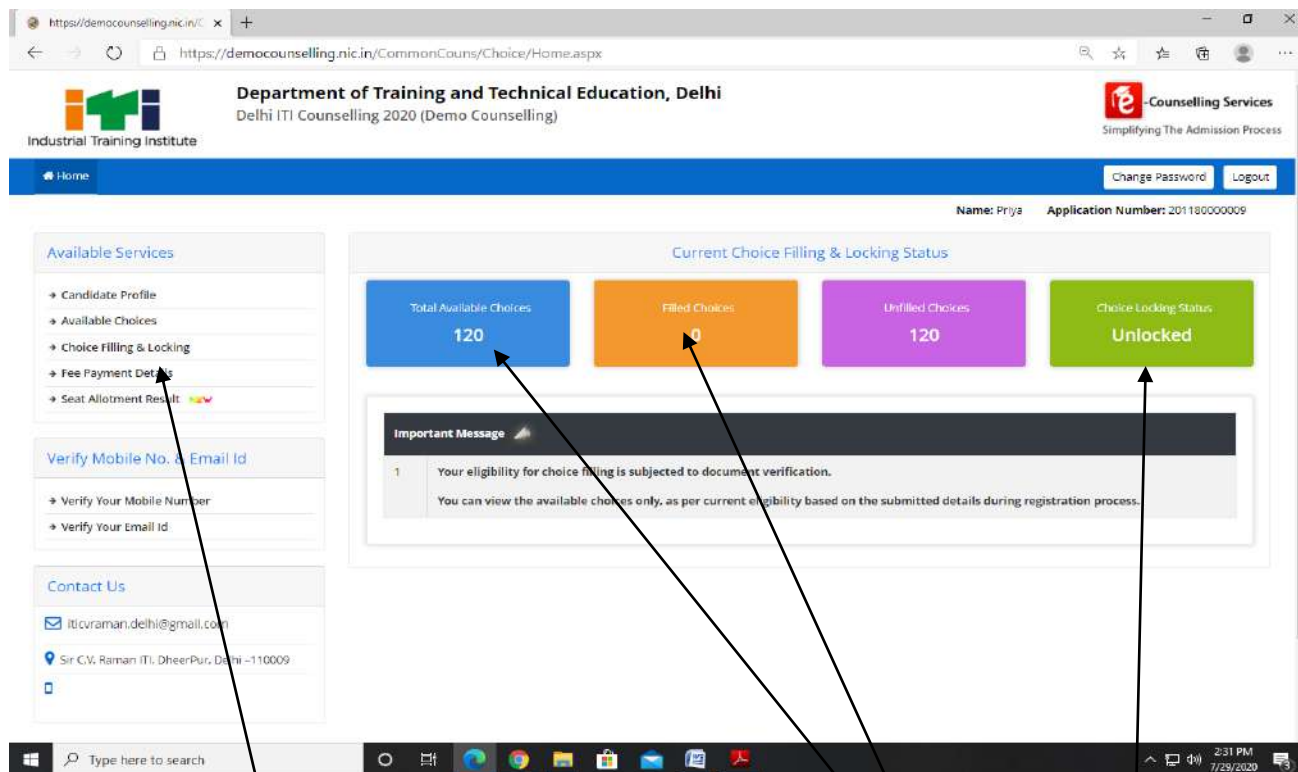

If some discrepancy is detected in the candidate's details then the same would be informed to the candidate through email/SMS on his registered email id. The candidates need to get the discrepancy removed within stipulated time i.e. Last date of verification and get his application verified for being eligible to participate in admission. For removal of discrepancy candidate needs to upload the requisite document in support of his/her claim on the online admission portal. Candidate can contact helpline numbers given in the contact details of Government ITI for help.

Verification is one time process and would be carried out within the stipulated time as given in the prospectus. No verification would be done after the stipulated time of verification so it is in the interest of candidate to get the objection/ discrepancy removed (if any) as soon as possible so that his application gets verified and he/she would be able to participate in admission process.

Non verified candidates would not be able to participate in admission process.

In some deserving objection/discrepancy cases the candidate may verified subject to undertaking by the candidate that he/she would get the discrepancy removed at the time of admission otherwise his/her allotted seat may be withdrawn and he/she would be out of further counseling's.

After verification the candidate needs to log into the online admission portal and fill Trade/ITI choices for participation in online admission process. The following screen will appear.

S. No.	The screen is showing the following data.		
1.	Total Available Choices	Maximum number of Trade/ITI for which Candidate is eligible to apply as per his qualification, gender etc.	In above snap the candidate is eligible for 120 ITI/Trade choices
2.	Filled Choices	They are total number of ITI/Trade choices which the candidate has applied for participation in counseling.	In above snap the candidate has applied for 0 out of 120 choices ITI/Trade choices available to him/her
3.	Unfilled Choices	It signifies total ITI/Trade choices which the candidate has not applied for but the candidate is eligible to apply. S. No 3 = S. No 1 – S. No. 2	Total unfilled choices in above Snap is 120.
4.	Choice Locking Status	Candidate needs to compulsorily lock his filled choices. Unlocked/not locked choices would not be considered for counseling.	Above candidates choices are not locked.

The candidate should click on “**Choice filling and locking**” for filling choices.

The **available ITI/Trade choices** will appear on the Right side. The candidate needs to click on “ADD CHOICE” to select choice. After clicking on “Add” button the selected choice will appear on right side. Candidate should fill as many choices as possible to increase his/her chances of getting a seat allotted.

Divyang candidates must fill choices in the trades in which they are certified as fit for undergoing the trade by NCS(Formerly VRC, 9-11 Vikas Marg, Karkardooma, Delhi /IBHAS as the case may be. If due to wrong filling of choices a seat is allotted to the divyang candidate in which he/she is not fit for trade, then the same would get cancelled and candidate would be responsible for the same.

The location of various ITI's is available in prospectus. Candidates may use this information to find out the distance of ITI from his/her place of residence. The higher choice seat would be first considered for allotment to the candidate and if that seat is not available then the next lower choice seat would be considered and so on. Choice number “1” would be the highest choice in order of preference.

The Trades/ITI's for which a candidate is **not eligible** would **not** be shown in the “**Total Available choice column**“. Eg. If a candidate is **male** then he would not be shown “**all women courses in coed ITI's**” and “**all trades of women ITI's**”. Similarly if a candidate does not have mathematics and science in qualifying exam then trades which had entry qualification of mathematics and science would not be displayed to him/her.

Only the choices which the candidate has filled and locked would be considered for admission in order of preference i.e. most preferred trade/ITI choice to be given as **1st preference** and the preference of the choice would become less preferred as the choice number increases.

The screenshot displays the 'Choice Filling' interface for Delhi ITI Counselling 2020. At the top, the user is identified as 'AJAY' with application number '20118000007'. The interface includes a top menu bar with options like 'Home', 'Choice Filling', 'Manage Filled Choices', 'Choice Interchange', 'Choice Rearrange', 'Multiple Selection', and 'Lock Choice'. Below the menu, there are filter dropdowns for 'All Institute Types', 'All Institutes', and 'All Programs'. A search bar is provided with 'Filter' and 'Clear All Filter' buttons. The main content area is divided into two sections: 'Available Choice(S)' and 'Filled Choice(S)'. The 'Available Choice(S)' section shows a list of ITI programs with 'Add' buttons. The 'Filled Choice(S)' section shows a table of selected choices with 'Remove', 'Up', and 'Down' buttons. A 'Save and Continue' button is highlighted with an arrow pointing to the 'Up' button of the first filled choice. The bottom of the page features a disclaimer and the NIC logo.

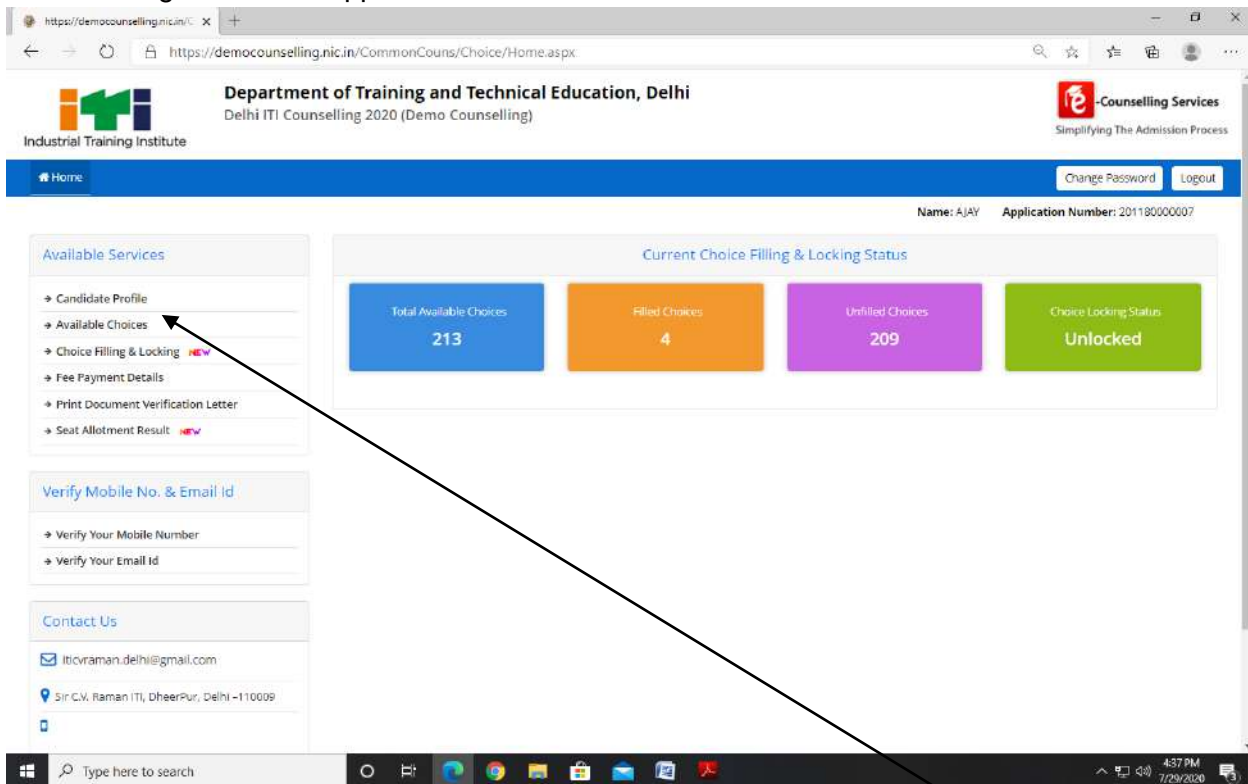

Candidate can change the Priority of his/her filled choice by clicking on **up** or **down** buttons given on the right side of filled choice.

Candidate can use various drop down filters as given above to sort available choices in convenient formats.

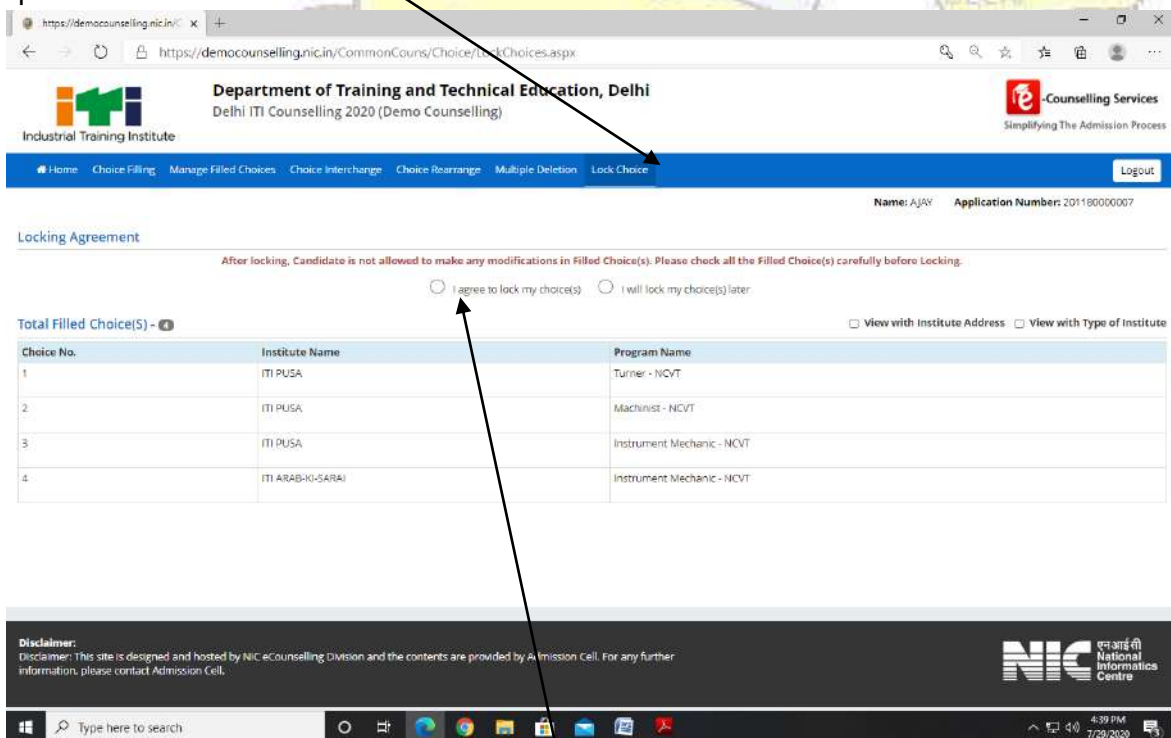

Candidate can also change the priority of his/her choices by using choices in Top menu bar.

Thereafter candidate can select **Save and Continue** or **Save and go to home** as applicable to save choices.

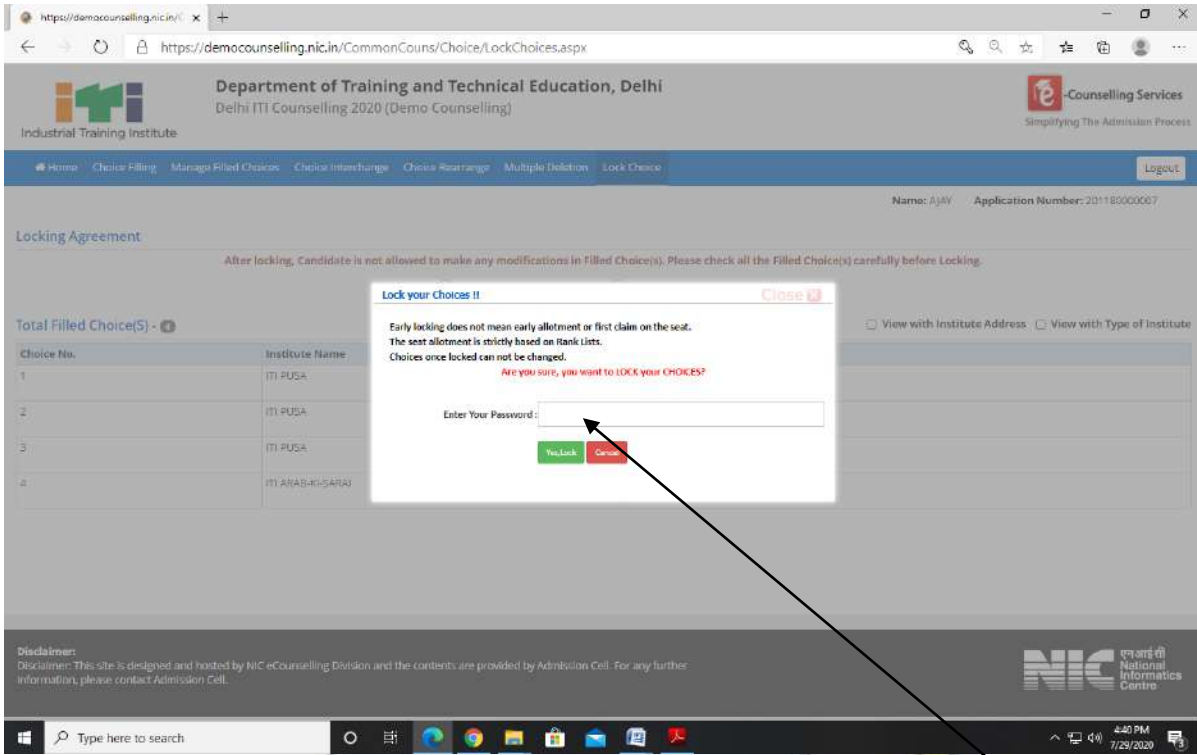

The following screen will appear

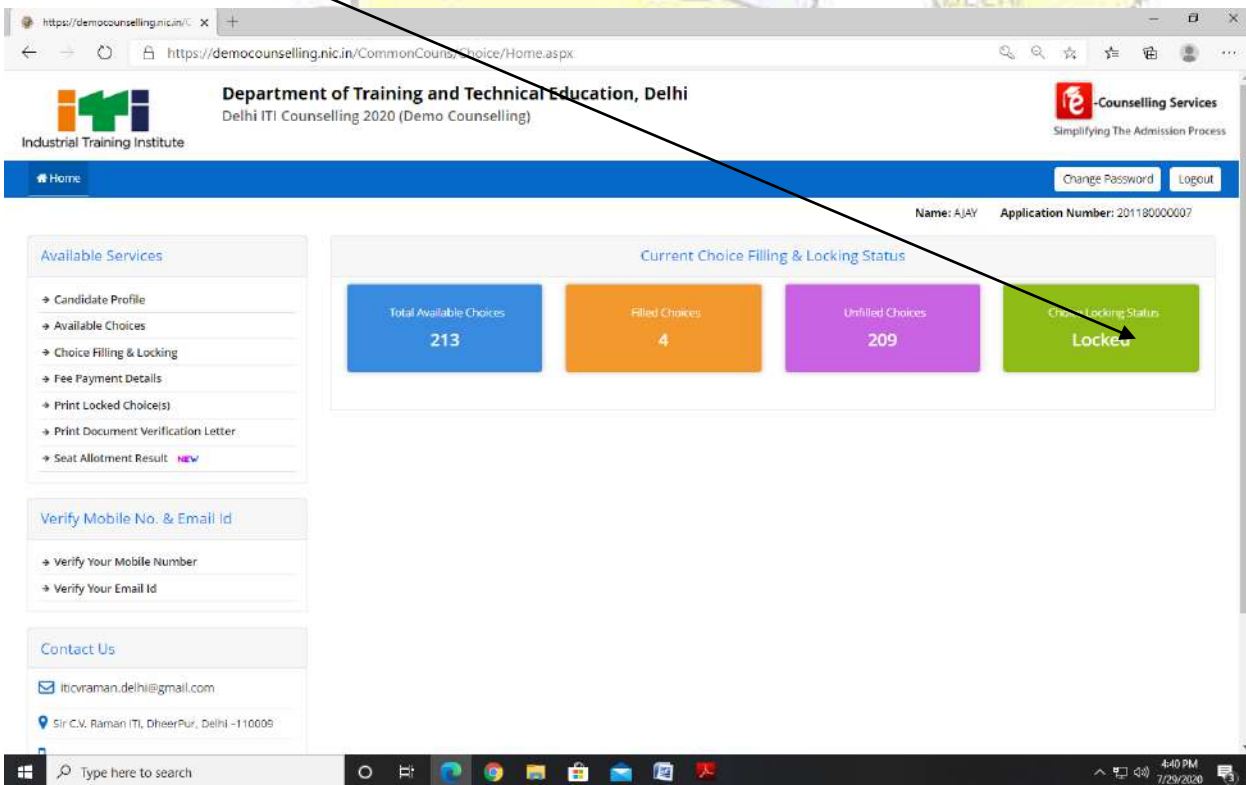

After saving the candidate needs to lock choices. For locking click on **“Choice filling and Locking”** option and then click on **“lock choice”** button.

Now select the round button **“I agree to lock my choices”**.

The above dialogue box will appear on the screen. Candidate needs to fill the **Password** in the dialogue box and click on submit. The following screen will appear and confirm that candidate's choices are **"Locked"**.

Choices once locked cannot be changed and would be treated as final.

Candidate can Print locked choices by clicking on **“Print Locked Choice”** Button.

The screenshot shows the democounseling.nic.in website interface. On the left, under 'Available Services', the 'Print Locked Choice(s)' option is highlighted with a red arrow. The main content area displays 'Choice Locking Details' with the following information:

CRAFTSMEN TRAINING SCHEME (CTS)

The Craftsmen Training Scheme was introduced by the Government of India in 1950 to ensure a steady flow of skilled workers in different trades for the domestic industry, to raise quantitatively and qualitatively the industrial production through systematic training, to reduce unemployment among the educated youth by providing them employable training.

Salient Features of the **Craftsmen Training Scheme**:-

- ITIs are functioning under the administrative control of the respective State Govt./UTs.
- The period of training for various trades varies from one year to two years and the entry qualification varies from 8th & 10th class pass, depending on the requirements of admission in different trades.
- These institutes are required to conduct training courses as per the curriculum prescribed by National Council for Vocational Training (NCVT). The admission to the new courses is made in the month of July/August every year.
- The trainees are required to appear in the Final Trade Tests conducted under the aegis of National Council for Vocational Training/State Council of Vocational Training. The successful trainees are awarded National Trade Certificate/State Trade Certificate which has been recognized by Govt. of India/State Govt. for the purpose of recruitment to subordinate posts and services under the Central Govt./State Govt./PSUs/Private Sectors.
- Syllabi of various trades are periodically revised to keep pace in tune with changes in technology.

CERTIFICATION ON SUCCESSFUL COMPLETION OF TRAINING

- A trainee admitted in NCVT designated trade/course with affiliation from NCVT will have to undergo a regular training of the trade concerned as per the syllabus laid down by the Directorate General Training (DGT), Government of India and shall be eligible to get the N.C.V.T. certificate on passing all examinations.
- A trainee admitted in SCVT designated trade/course will have to undergo a training of the trade concerned as per the syllabus lay down by the Board of Technical Education, Delhi and shall be eligible to get the S.C.V.T. Certificate on passing all examinations.
- All the SCVT designated trades and NCVT designated trades running under SCVT affiliation. A trainee on successful completion of these trades would receive a SCVT certificate.

DUAL SYSTEM OF TRAINING (DST)

Ministry of Skill Development & Entrepreneurship has implemented the scheme named “**Dual System of Training**” (DST) w.e.f. **August 2016**. DST has been approved during 40th meeting of National Council of Vocational Training (NCVT).

The courses will be conducted to meet the workforce requirement of the industry so that after the completion of training in dual system, the trainee having NTC with dual mode will get better employment opportunities in industry.

The ITI and Industry will have the freedom to choose the training pattern either in **Block mode (few months in ITI and few months in industry)** or **mixed mode(i.e. few days in a week shared between ITI and Industry)**.

TRADE THEORY AND SOME PORTION OF PRACTICAL: The theory portion and basics about safety and tools, equipment along with foundation practical will be conducted by ITI.

INDUSTRY TRAINING PORTION: The remaining portion of training shall be conducted in the industry/organization. For a **two year course it is expected that nine months (i.e. ~1560 hrs.) training would be in the industry** and remaining portion would be in the ITI. **For one year course it is expected that five months training would be in the industry.**

Assessment and Certification: Assessment and certification of all the trainees will be carried out **as per DGT/NCVT norms for Trade theory including practical portion conducted in ITI workshop. Industrial training of the trainees shall be accessed by the industry partner.** After successfully completion of training, **National Trade Certificate (NTC) (mentioning dual model) shall be awarded to the trainee.**

For stipend, industry, and additional information the candidate may **contact ITI offering the said trade in Dual System of Training and/or refer orders issued by MSDE (DGT) in this regard (<http://dget.nic.in/content/innerpage/dual-system-of-training.php>).**

National Skills Qualifications Framework (NSQF)

The **National Skills Qualifications Framework (NSQF)** is a competency-based framework that organizes all qualifications according to a series of Level of knowledge, skills and aptitude. These levels, graded from one to ten, are defined in terms of learning outcomes which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning. NSQF in India was notified on 27th December 2013. All other frame works, including the NVEQF (National Vocational Educational Qualification Framework) released by the Ministry of HRD, stand super ceded by the NSQF.

Under NSQF, the learner can acquire the certification for competency needed at any Level through formal, non-formal or informal learning. In that sense, the NSQF is a quality assurance framework. Presently, more than 100 countries have, or are in the process of developing national qualification frameworks.

The NSQF is anchored at the National Skill Development Agency (NSDA) and is being implemented through the National Skills Qualifications Committee (NSQC) which comprises of all key stakeholders. The NSQC's functions amongst others include approving NOSs/QPs, approving accreditation norms, prescribing guidelines to address the needs of disadvantages sections, reviewing inter-agency disputes and alignment of NSQF with international qualification frameworks.

Specific outcomes expected from implementation of NSQF are:

- i. Mobility between vocational and general education by alignment of degrees with NSQF
- ii. Recognition of Prior Learning (RPL), allowing transition from non-formal to organized job market
- iii. Standardized, consistent, nationally acceptable outcomes of training across the country through a national quality assurance framework
- iv. Global mobility of skilled workforce from India, through international equivalence of NSQF
- v. Mapping of progression pathways within sectors and cross-sectional
- vi. Approval of NOS/QPs as national standards for skill training

Multi-Sectoral Development Programme

The Multi-Sectoral Development Programme (MSDP) was conceived as a special initiative of the follow up action on the Sachar Committee recommendations. It is a Centrally Sponsored Scheme (CSS) approved by the Government in the beginning of the 11th five Year Plan and launched in the year 2008-09 in 90 Minority Concentration Districts (MCDs). It is an area development initiative to address the development deficits of minority concentration areas by creating socio-economic infrastructure and providing basic amenities. The scheme aims at focused development programs for backward minority concentration areas to help reduce imbalances and speed up development. Muslims, Sikhs, Christians, Buddhists and Zoroastrians (Parsis) have been notified as minority communities under Section 2 (c) of the National Commission for Minorities Act, 1992.

Presence of trainees during the visits is obligatory, Common room, steel lockers, water coolers and canteen facilities are provided for the convenience of trainees, wherever possible.
2. **Library Facilities:** All the institutes have been provided with good libraries and the trainees are advised to make full use of them.
3. **Placement:** Facilities of training during their course of study and placement of trainees after completion of the course are arranged by the Placement officer deputed by the Principal of the institute
4. **State Level Skill Competitions:** In order to foster a spirit of healthy competition among trainees of the institutes, with a view to raise the standard of skill. All India Skill Competition are held every year, the trainees under the regular Craftsmen Training Scheme only are eligible to compete in the State Level Competition. At present it covers 15 engineering and Non-Engineering Trades. Trainees securing 1st position at State Level Competition are eligible to compete in All India Skill Competition.

AGE LIMIT

Minimum age limit for admission in ITI is 14 years for all the candidates as on 01-08-2020. No Upper age limit is prescribed for the candidates seeking admission in Government ITIs/BTC.

Candidates seeking admission in Dual System of Training Trades may consult the concerned institute regarding the age limit criteria for Industrial Training.

PHYSICAL FITNESS

All the candidates shall be required to submit a Medical Fitness Certificate from a Registered Medical Practitioner as per Annexure- I at the time of admission.

NOTE: Admission of the candidate shall stand cancelled ab-initio, if any information supplied or document submitted is proved to be false/ fake at any stage even after admission.

DISCIPLINE

All the trainees admitted to an institution will be under the complete disciplinary control of the Principal of the institute or any other officer(s) appointed by the competent authority for the purpose and must conduct themselves in accordance with the disciplinary rules of institution as framed and notified by the Principal.

UNDER THE RULES, FOLLOWING ARE THE FORBIDDEN PRACTICES:

- a) RAGGING IN ANY FORM IS STRICTLY PROHIBITED. If any incident of ragging comes to the notice of the authorities, the concerned trainee may be given the opportunity to explain and if his/her explanation is not found satisfactory, the authority would expel him from the institution.
- b) Disfiguring or otherwise damaging institutional property;
- c) Smoking in the class room, workshop and laboratory or during field training;
- d) Use of drugs or intoxicants except for those prescribed by a registered medical practitioner and under the knowledge of Principal of the institution;
- e) Any form of gambling;
- f) Rowdies and rude behavior;
- g) Use of violence in any form;
- h) Offences of cognizable nature;
- i) Castism, communalism or practice of un-touch ability; or
- j) Any other conduct unbecoming of a trainee of the Institution. Any trainee indulging in any of the forbidden practice may attract any or more of the following disciplinary Measures: -
 - i) Cancellation of the scholarship/stipend (in part or in whole, temporarily or permanently) in accordance with the rules prescribed in this regard.
 - ii) Fine;
 - iii) Suspension;
 - iv) Expulsion; or
 - v) Rustication.

The candidates for admission have to give an undertaking that they will abide by the rules and regulations prescribed by the DTTE/ Principal and any action taken in this regard on the trainee by the Principal shall be final.

CONDUCT OF EXAMINATION

Annual exams may be conducted in May/June and supplementary exams may be conducted in November/December each year.

Only those candidates who have completed minimum essential attendance of 80% would be permitted to appear in examination. The candidate who has insufficient attendance may not be allowed to appear in the ensuing examination and would be treated as per DGE&T/DTTE norms.

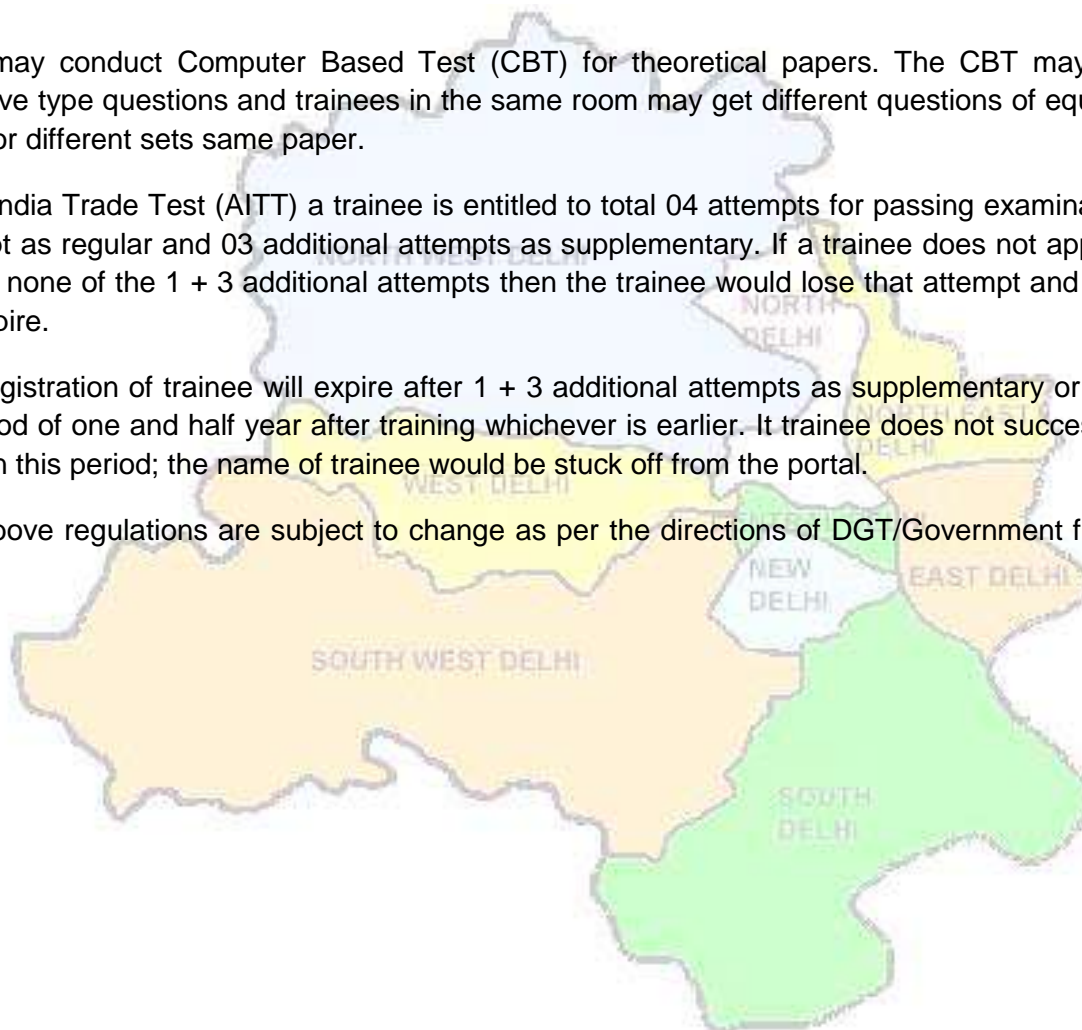

For Trainees passing marks percentage would be 33 % in each paper for Annual Theory examinations. The passing percentage for practical examination and formative assessment would be 60%.

DGT may conduct Computer Based Test (CBT) for theoretical papers. The CBT may use MCQ objective type questions and trainees in the same room may get different questions of equal difficulty Level or different sets same paper.

In All India Trade Test (AITT) a trainee is entitled to total 04 attempts for passing examination i.e. 01 attempt as regular and 03 additional attempts as supplementary. If a trainee does not appear in only one or none of the 1 + 3 additional attempts then the trainee would lose that attempt and registration will expire.

The registration of trainee will expire after 1 + 3 additional attempts as supplementary or completion of period of one and half year after training whichever is earlier. If trainee does not successfully pass AITT in this period; the name of trainee would be stuck off from the portal.

The above regulations are subject to change as per the directions of DGT/Government from time to time.

HOW TO DOWNLOAD NTC FROM MIS PORTAL

1. Go to NCVT Portal through following link
<http://www.ncvtmis.gov.in/pages/home.aspx>

2. Now click on Trainee tab and then click on Trainee Profile

3. Now enter the following Details

a. Registration No:- It is a trainee roll no. only starting with R (Kindly use you're roll number only by replacing starting 00 with R)

For example: If trainee Roll No. is: - 00160807001111

Then Registration No. is: - R160807001111

b. Father/Guardian Name: - Enter the father name as mentioned in Exam hall ticket.

c. Date of Birth: - Enter the DOB in dd-mmm-yyyy format.

d. Enter image text: -Enter the image text as it is as displaying on the portal.

Two Year Engineering Trades

1. **TOOL & DIE MAKER (DIES & MOULDS)-** Tool and Die Makers build, repair and modify custom made prototypes or special tools, Dies, Moulds, Die casting Moulds and various types of mechanical devices. Dies and moulds are metal forms used for moulding plastics or other moulding material. Tool and Die Makers fabricate various parts, like pieces of a puzzle, which require perfect fitting. While this occupation is closely allied with the machinist trade and encompasses many of the same skills, Tool and Die Makers usually specialize in jobs spending more time in fitting and assembling precision components which are required for plastic injection moulds and die cast moulds. A Tool and Die maker's work depends up on precise measurements and accuracy, as such math skills are important. Also, they must be able to read and interpret information from design drawings and specifications to fabricate all types of Dies and Moulds. Being mechanical minded is an additional skill. Plan and organize assigned work and detect & resolve issues during execution. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English, Sensitive to environment, self-learning and productivity
2. **TOOL & DIE MAKER (PRESS TOOLS, JIGS & FIXTURES)-** & Die Maker (Press Tools, Jigs & Fixtures): Tool and Die Makers build, repair and modify custom made prototypes or special tools, Press Tools, Jigs, Fixtures and various types of mechanical devices. Press Tools are metal forms used for Sheet metal cutting and forming. Tool and Die Makers fabricate various parts, like pieces of a puzzle, which require perfect fitting. While this occupation is closely allied with the machinist trade and encompasses many of the same skills, Tool and Die Makers usually specialize in jobs spending more time in fitting and assembling precision components which are required for sheet metal cutting forms. A Tool and Die maker's work depends on precise measurements and accuracy, as such math skills are important. Also, they must be able to read and interpret information from design drawings and specifications to fabricate all types of Press Tools Jigs and Fixtures. Being mechanical minded is an additional skill. Plan and organize assigned work; and detect and resolve issues during execution. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English, sensitive to environment, self-learning and productivity.
3. **DRAUGHTSMAN (CIVIL)** - The course gives a wide knowledge on construction related manual and CAD drawings, Surveying, Materials, Concrete Technology, and Building Specialization in Construction. One can take gainful employment with construction Industry, Architectural firms / Designers / PWD etc.
4. **DRAUGHTSMAN (MECHANICAL)** - Professional Knowledge subject is simultaneously taught in the same fashion to apply cognitive knowledge while executing task. In addition components like physical properties of engineering materials, interchangeability, method of expressing tolerance as per BIS Fits, different types of iron, properties and uses, special files, honing, metallurgical and metal working processes such as heat treatment, the various coatings used to protect metals, different bearing, working material with finished surface as aluminum, duralumin and stainless steel, topics related to non-ferrous metals, method of lubrication are also covered under theory part. At the end part of each semester, the trainees should express their skills by presenting project works. Total three projects need to be completed by the candidates in a group. In addition to above components the core skills components viz., workshop calculation & science, engineering drawing, employability skills are also covered. These core skills are essential skills which are necessary to perform the job in any given situation.
5. **ELECTRICIAN-** Electrician General; installs, maintains and repairs electrical machinery equipment and fittings in factories, workshops power house, business and residential premises etc. Studies drawings and other specifications to determine electrical circuit, installation details etc. Positions and installs electrical motors, transformers, switchgears. Switchboards and other electrical equipment, fittings and lighting fixtures. Makes connections and solders terminals. Tests electrical installations and equipment and locates faults using mugger, test lamps etc. Repairs or replaces defective wiring, burnt out fuses and defective parts and keeps fittings and fixtures in

working order. May do armature winding, draw wires and cables and do simple cable jointing. May operate, attend and maintain electrical motors, pumps etc. Electrical Fitter; fits and assembles electrical machinery and equipment such as motors, transformers, generators, switchgears, fans etc., Studies drawings and wiring diagrams of fittings, wiring and assemblies to be made.

6. **ELECTRONICS MECHANIC** - Electronic Equipment Mechanic repairs electronic equipment, such as computers, industrial controls, transmitters, and tele-metering control systems following blueprints and manufacturers specifications and using hand tools and test instruments. Tests faulty equipment and applies knowledge of functional operation of electronic units and systems to diagnose cause of malfunction. Tests electronic components and circuits to locate defects, using instruments, such as oscilloscopes, signal generators, ammeters and voltmeters. Replaces defective components and wiring and adjusts mechanical parts, using hand tools and soldering iron. Aligns, adjusts and calibrates testing instruments. Maintains records of repairs, calibrations and test.
7. **INFORMATION & COMMUNICATION TECHNOLOGY SYSTEM MAINTENANCE** -The role of a Information & Communication Technology System Maintenance personnel is to support and maintain computer systems, desktops, and peripherals. This includes installing, diagnosing, repairing, maintaining, and upgrading all hardware and equipment while ensuring optimal workstation performance. The person will also troubleshoot problem areas in a timely and accurate fashion, and provide end user training and assistance where required. Install, maintain and setup network with computers, printers and other peripheral equipment as well as configure broadband equipment.
8. **INSTRUMENT MECHANIC** - This course has been started with a view to train students in the vastly Emerging industries of India using new technologies like Petro-Chemical Engineering, Manufacturing Engineering, Aviation etc. To cope up with the modernization of Indian industry and quality control, the syllabus and objectives of teaching have been formulated to encompass the areas of computers, manufacturing engineering, robotics and industrial automation, which are now important areas of study. One takes employment with Govt. / Private Industries.
9. **MACHINIST GRINDER** - Grinding experience will be in the field of "Tool" Grinding, Machinist (Grinder) setup and operates variety of machine tools, and fits and assembles parts to fabricate or repair machine tools and maintain industrial machines, applying knowledge of mechanics, shop mathematics, metal properties, layout, and machining procedures. The trainees, admitted after successful completion of their training, acquire the skills on various operations in different grinding machines Viz. Centre less grinder, Crankshaft Grinders, Internal & External Grinders, Tool & Cutter grinder apart from basic knowledge on machines. One can take Govt. / Private Employments.
10. **MECHANIC MOTOR VEHICLE** - The course broadly covers the complete functioning, overhauling of Petrol & Diesel Engines of vehicles of all categories being fuelled by Petrol, Diesel & Gases The course has a good demand in the Automobile industry thereby giving advantage for either employment or self-employment.
11. **REFRIGERATION AND AIR CONDITIONING TECHNICIAN** -The course gives an in-depth knowledge on Repair & Maintenance of Refrigerators, Centrally Air-conditioning system & Air-conditioners available in the market. On Successful completion, trainees can be absorbed in Railways, Govt. / Public Sector under takings apart from self-employment.
12. **FITTER** - Fitter is a person who uses machine tools to make or modify parts, primarily metal parts, and a process known as machining. This is accomplished by using machine tools to cut away excess material such as a woodcarver cuts away excess wood to produce his work. The demand of fittings of various nature, Plumbing, Welding, Black smithy, Knowledge on various Lathes, drilling Machines, Sheet Metal Works etc. The fitter Workshops are equipped with modern

and sophisticated Machineries, Equipment & Tools. The precision works are mainly handled by fitters in the Industries.

- 13. MACHINIST** - Machinists use machine tools, such as lathes, milling machines and grinders to produce precision metal parts. Although they may produce large quantities of one part, precision machinists often produce small batches or one-of-a-kind items. They use their knowledge of the working properties of metals and their skill with machine tools to plan and carry out the operations needed to make machined products that meet precise specifications. The parts that machinists make range from bolts to automobile pistons. Some machinists, often called production machinists, may produce large quantities of one part, especially parts requiring the use of complex operations and great precision. Many modern machine tools are computer numerically controlled (CNC) or CNC machines.
- 14. PAINTER** - This trade broadly covers oil painting using spray gun and brushes, stenciling, Painting of walls-Layout process, Pigment, Process of pre-treatment of metal, surfaces, silk screen painting, Spray painting, color codes & identification of pipe lines as per international & Indian standard, Airless & electrostatic spraying, Rustburg electrostatic, blade coater, Method and application processes of car body finishing various types of systems of spray painting and Staving , methods of heat transfer, time temperature relation in a staving oven. The trainees in Painter (General) may work as painter, Automobile, Railways, Aircrafts and Medium, small industry or in government organizations.
- 15. TURNER** - The trainees admitted, after successful completion of their training acquire the skills on various operation in different Lathe machines and acquire the skills of Facing, Planning, Turning, Threading (Internal & External), Taper Turning etc. Apart from the conventional machines, they have exposure to acquire skills on CNC Machines, CAD & CAM.
- 16. WIREMAN** - Wireman, Light and Power installs various kinds of electrical wiring such as cleat, conduit, casing, concealed etc. in houses, factories, workshops and other establishments for light and power supply. Studies diagram and plan of wiring and marks light, power and other points accordingly. Fixes wooden pegs, sizes tubes, saws casings, etc. by common carpentry fitting and other processes, according to type of wiring needed. Erects switch boards and fixes switch box casings cleats, conduits ceiling roses, switches, meters etc. according to type and plan of wiring. Draws wire in two way or three-way wiring system as prescribed and makes electrical connections through plugs and switches to different points exercising great care for safety and avoiding short circuit and earthing at any stage of wiring. Fixes fuses and covers as per diagram and insulates all naked wires at diversions and junctions to eliminate chances of short circuit and earthing. Fits light brackets, holders, shades, tube and mercury lights, fans etc, and makes electrical connection as necessary. Tests checks installed wiring for leakage and continuity using megger, removes faults if any and certifies wiring as correct for connecting mains. Checks existing wiring for defects and restores current supply by replacing defective switches, plug sockets, blown fuse etc. or removing short circuits and faulty wiring as necessary. May repair simple electrical domestic appliances.
- 17. TECHNICIAN MEDICAL ELECTRONICS** - This course has been designated to provide an in depth knowledge of Digital Electronics, Communication equipment and various precisions medical & dental equipment's viz. surgical diathermy, baby incubator, ventilator, pacemaker, ECG recorder. They also learn the operation of these electronics equipment and trouble shooting. After completion of training, one can take up job with the manufacturing and service industries of electronics equipment with advantages of being absorbed as biomedical technician by the medical equipment manufacturer.
- 18. TECHNICIAN POWER ELECTRONICS SYSTEMS**-The trade broadly covers the topics on different variety of This course is meant for the candidates who aspire to become a Technician to Maintain and Repair Power Electronic Equipment, trainee shall be able to handle different types of Electronic measuring Instruments, faults, computer hardware & networking, maintenance of SMPS, UPS, Inverter, solar power system and various analogue and digital circuits. Repair

maintenance & installation of Electrical control of AC/DC machines. On successful completion of this course, the candidates shall be gain fully employed in leading industries or getting self-employed.

19. MECHANIC CONSUMER ELECTRONIC APPLIANCES- This course is meant for the candidates who aspire to become a Technician to repair different Domestic and Consumer Appliances. The trainee shall be able to handle different types of Electronic measuring Instruments, faults, computer hardware & networking, maintenance of SMPS, UPS, Inverter, solar power system and various analogue and digital circuits. Installation & Repair maintenance of microcontroller based system, LED/ LCD TV, Cell phone (Mobile), Consumer electronics equipment's like Washing Machine, Dish Washer, Mixer Grinder, water purifiers, Vacuum cleaner, Microwave oven, Immersion heater, Induction cook top, printers, home theatre system & CCTV etc. The candidates shall be gain fully employed in leading various industries like consumer/domestic electronics appliance & manufacturing industry or getting self-employed.

20. INFORMATION TECHNOLOGY- Junior Software Developer; is one of the many entry L roles in the software industry including support and help desk, testing, user interaction design, maintenance, enhancement, development and documentation. Programming Assistant/Junior Software Engineer; installs, maintains and updates computer programs by making minor changes and adjustments to them under the guidance of computing professionals. Maintains and updates documents of computer programs and installations. Web Developer; is responsible for designing and maintaining web-based applications that include static and dynamic content. This includes the design, layout and coding of a website. They may work standalone or along with application/functional developers as part of the overall solution that includes a web based component. Media Developer-Application Development; is responsible for designing and improving the look and feel, functionality and graphics appeal of the developed application. They may work standalone or along with application/functional developers to improve the aesthetics of the application being developed. Data Communication Analyst/Network Administrator; researches, tests, evaluate, and recommends data communications hardware and software: Identifies areas of operation which need upgraded equipment, such as modems, fiber optic cables and telephone wires.

21. SURVEYOR- Topographical Surveyor, surveys land to determine out line, contours and relative position of control points (land marks) on tract of land, coast, harbor, etc. for preparing topographical and other maps and records. Establishes control points and pillars to do instrumentation work on ground to prepare maps. Provides identification marks on ground for photographs taken in aerial survey. Fixes position of control points on ground in relation to some permanent position and with reference to celestial bodies using the odolites and precise Ls, tachometer, digital plan meter etc. Adjusts and sets the odolites, compasses, plane tables, Ling instruments, Total station, GPS, DGPS and other modern instruments for survey, observes and records measurements and angles from three determined points (triangulation), locations to scale on proper sketch. Corrects margin of error due to worn-out tapes which become incorrect, and readings on instruments which are affected by environmental factors. Plan and organize assigned work and detect & resolve issues during execution in his own work area within defined limit. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English. Sensitive to environment, self-learning and productivity.

22. ARCHITECTURAL DRAUGHTSMAN- Prepares drawings of buildings, parks, gardens, monuments etc. from sketches, designs or data for construction. Studies notes, sketches and other engineering data of buildings, parks, gardens, monuments etc. to be constructed. Draws sketches of required construction according to directions of architect to suit the purpose and environment; alters them if directed and gets them approved by him. Draws to scale drawings according to approved sketches showing plan, elevations, settings, arrangements etc. as necessary. May trace drawings and make blue prints. May prepare architectural designs, may prepare estimate of schedules for material and labour. May prepare model of construction work. May work as Draughtsman civil.

23. TECHNICIAN MECHATRONICS- Technician Mechatronics are generalized trade-technician workers. Mechatronics technicians will usually assist design, development and engineering staff, as well as working closely with other trades persons to install, maintain, modify and repair Mechatronics systems, equipment and component parts. Mechatronics technicians build automated systems for industry. Mechatronics involves mechanics, electronics, and pneumatics and computer technology. The computer technology element covers information technology applications, programmable machine control systems, and technology which enable communication between machines, equipment and people. In addition Technician Mechatronics have the ability to visualize the job, good coordination, mechanical attitude, manual dexterity and perform work related mathematical calculations.

ONE YEAR ENGINEERING TRADES

24. MECHANIC AUTO BODY REPAIR -Dent Remover/Auto Body Repair Technician/Denter Dent Remover; Panel Beater removes dents from sheet metal parts such as mudguards, body panels, tanks, containers, trunks by beating with mallets, smoothens surface for painting and other operations. Gets parts dismantled, examines dents caused by stress or accidents and starts beating from highest point on inner side with mallet to bring it back to original shape. Supports outer surface with soft metal-piece, wood or broader mallet to avoid distortion in reverse direction. Manipulates support and uniformly beats inner portion till damaged portion is reformed to original shape. May engage an assistant to hold support and guide him in manipulating it. May also scrape or lightly file outer surface to remove further defects, if any, for obtaining finer finish. Welder, Gas Welder, Gas fuses metal parts together using welding rod and oxygen acetylene flame. Examines parts to be welded, cleans portion to be joined, holds them together by some suitable device and if necessary makes narrow groove to direct flow of molten metal to strengthen joint. Gas Cutter Gas Cutter; Flame Cutter cuts metal to required shape and size by gas flame either manually or by machine.

25. MECHANIC AUTO BODY PAINTING- Painter, Spray/Painting Technician (Spray Painting) Painter Spray; Duco Painter applies decorative or protective materials such as paint, enamel or lacquer including synthetic paint on articles of wood, metal etc., using spray painting equipment. Selects and mixes paints to produce desired color consistency, strains and puts coating liquid into spray-gun tank, couples gun to air-hose and adjusts air pressure valves and nozzle. Presses trigger and directs spray of prime and finish coats of paint over surfaces and ensures smooth and even finish. Covers with tape areas not to be painted or where painting is to be done in second coloring. Cleans gun and hose with solvent before changing color and on completion of work. May prepare surfaces for painting, using scrapers, abrasives, chemical removers or other means. May be designated according to article coated or material used. Plan and organize assigned work and detect & resolve issues during execution in his own work area within defined limit. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English. Sensitive to environment, self-learning and productivity.

26. CARPENTER- Carpenter, General makes, assembles, alters and repairs wooden structures and articles according to sample or drawing using hand or power tools or both. Studies drawing on sample to understand type of structure or article to be made and calculates quantity of timber required. Selects timber to suit requirements. Marks them to size using square, scribe etc. Saws, chisels and planes wooden pieces to required sizes and makes necessary joints such as half lap, Tenon mortise, dove-tail etc. using saws, planes, mortising, chisels, drills and other carpentry hand or power tools as required. Checks parts frequently with square, foot rule, measuring tape etc. to ensure correctness. Assembles parts and secures them in position by screwing, nailing or

doweling. Checks assembled structure with drawing or sample; rectifies defects, if any, and finishes it to required specifications. Alters, repairs or replaces components in case of old structures or articles in similar manner. May glue parts together. May smoothen and finish surface with sand paper and polish. May fix metal fittings to structure and polish. May fix metal fittings to structure or article made. May calculate cost of furniture. May sharpen his own tools.

27. MECHANIC DIESEL-Diesel engine fundamentals and power generation. The trainees have to participate in hands-on work and begin repairing diesel engine vehicles. Mechanic, Diesel Engine; Oil Engine, Fitter repairs services and overhauls diesel or oil engines for efficient performance as prime mover to drive machinery and equipment. Examine engine to locate defects, using various tools and instruments. Dismantles or partly dismantles it to remove damaged or worn out parts and replaces or repairs them. Grinds valve and assembles parts, doing supplementary tooling and other functions as necessary to ensure accuracy of fit. Installs assembled or repaired engine in position and connects pulley or wheel to propulsion system. Starts engine, tunes it up and observes performance noting different meter readings such as temperature, fuel L, oil pressure, etc. and sets it to specified standard for optimum performance. Checks, adjusts and lubricates engine periodically and performs such other functions to keep engine in good working order. May solder or braze parts and service diesel fuel pumps and injectors. Additionally, since diesel engines are starting to incorporate electronic components, programs usually give students a chance to take courses in electrical systems and computer diagnostic software. Plan and organize assigned work and detect & resolve issues during execution in his own work area within defined limit. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English. Sensitive to environment, self-learning and productivity.

28. INTERIOR DESIGN & DECORATION - Interior Designer Interior Designer planning designs, and furnishes interiors of residential, commercial, or industrial buildings. Interior designer to understand civil requirement & serve offer to do clean & functional environment Interior designer can design and estimate various types of residential & commercial interiors with color scheme. Makes sketches and diagrams or design keeping into consideration purpose, cost and preferences of client. Estimates material requirements and costs, and presents design to client for approval. Plans and designs interior environments also for boats, planes, buses, trains, and other enclosed spaces. Designers can use different interior software's for making plan & designs. Decorator; Decorators coordinate the architect & civil engineer. Decorator is executing the concept of designing of interior designer. They have to know management, time line part, material part, consult the designer regarding the fabrication, design the aesthetic part. Furniture Designer Furniture Designer designs furniture line or individual pieces for manufacture according to knowledge of design trends. Studies market trends and customer needs and discusses design suggestions with production management and trade channels. Design & execute suitable furniture as per anthropometrics in different materials.

29. PLUMBER - The trade broadly covers Basic Galvanized pipes Fitting, Cast iron pipes Fitting, PVC Pipe Fitting, SW Pipes Fitting, Water test, Pressure test, Smoke test, Ball test, Taps & Valves Fitting, Cutting / Threading / Bending / GI Pipes, Alkathene flanging / Jointing, Making service connections, Connecting house sewer to main, Fixing Sanitary Fixtures, Installing Water Pump, connecting supply pipe. Thus the trainees are prepared for employment with sanitary organizations, construction Industry and self-employment in both India & abroad.

30. MECHANIC TWO & THREE WHEELER - Mechanic, Motor Cycle after successful completion of the above course, the trainee shall be able to perform the following skills with proper sequence. Repairs, services and overhauls motorcycles, auto rickshaws, scooters; etc., to keep them

roadworthy. Examine motor cycle or scooter to locate faults by running engine in stationary position or by driving it on road. Dismantle parts such as engine, ignition system, dynamo forks, shock absorbers, gear box etc., as necessary. Grinds valves, sets timings, relines brakes, re-bushes steering mechanism, replaces worn out parts, assembles gear box clutch etc. Performs other tasks to affect repair, cleans and sets carburetor, fits driving chain, wheels silencer, kick, gear, clutch and brake levers and other accessories. Adjusts control cables for brake, clutch and accelerator, sets tappets and wheel alignment, tightens loose parts and makes necessary fittings and connections.

31. WELDER - Welder while doing gas welding fuses metal parts together using welding rod and oxygen acetylene flame. Examines parts to be welded, cleans portion to be joined, holds them together by some suitable device and if necessary makes narrow groove to direct flow of molten metal to strengthen joint. Selects correct type and size of welding rod, nozzle etc. and tests welding, torch. Wears dark glasses and other protective devices while welding. Releases and regulates valves of oxygen and acetylene cylinders to control their flow into torch. Ignites torch and regulates flame gradually. Guides flame along joint and heat it to melting point, simultaneously melting welding rod and spreading molten metal along joint shape, size etc. and rectifies defects if any. Welder while doing Arc welding fuses metals using arc-welding power source and electrodes. Examines parts to be welded, cleans them and sets joints together with clamps or any other suitable device Welder, operates spot welding machine to joint metal sheet by resistance welding method. Feeds metal sheets to be welded according to type of machine and welds them by pressing paddle, or by automatic arrangements. Welder while doing gas cutting, cuts metal to require shape and size by gas flame either manually or by machine. Welder while doing gas brazing, joints metal parts by heating using flux and filler rods. Cleans and fastens parts to be joined face to face by wire brush. Welder while doing Gas Tungsten Arc welding also known as Tungsten Inert Gas (TIG) welding reads fabrication drawing, examines parts to be welded, cleans them and sets joints with clamps or any other suitable device

32. MECHANIC AUTO ELECTRICAL & ELECTRONICS - A course which covers all Electrical/Electronic related works in an automobile which broadly covers basic miscellaneous electrical equipment's & accessories of all type of vehicle Automobile, control system, power seats, power window system, heated windshield, electric door lock, lighting system, spark plug, ignition system cranking motor, alternator functioning system, sensor functioning, types of sensors, charging system, Alternator types, types of regulator, Alternator cooling, trouble diagnosis. The course has a good demand in the Automobile industry thereby giving advantage for either employment or self-employment.

ONE YEAR NON-ENGINEERING TRADES

33. COMPUTER HARDWARE & NETWORK MAINTANANCE - Computer System Hardware Analyst/Hardware Engineer; analyses data processing requirements to plan data processing systems that provide system capabilities required for projected workloads and plans layout and installation of new system or modification of existing system. Confers with Data Processing and Project Managers to obtain information on limitations and capabilities of existing system and capabilities required for data processing projects and projected work load.
