ACADEMIC EXCELLENCE @ IIL

Teaching Pedagogy

Embracing dynamic Teaching Pedagogy, IIL encourages quality learning environment to eliminate monotonous Learning Techniques. By adhering Core Conventional Classroom Teaching, IIL works in order to eliminate lacunae in imparting knowledge in education. At the same time, the institute abides by Demonstrative and Experiential Learning in order to imbibe analytical reasoning and also teach students to examine their actions and thought process.

DEMONSTRATIVE LEARNING @ IIL

Demonstrative Learning provides better learning experience in the classroom for students. It generates interest of students in the subject and helps in developing the spirit of inquiry in them. It further enriches student's understanding of the Law Subject & it's applicability via various Subjective Competitions. Further it helps the student in having a deeper understanding of the topic which leads to permanent learning invoking principles of reflective thinking.

Mediation & Negotiation Competition

Moot Court Competition

Alternate Dispute Resolution Competition

EXPERIENTIAL LEARNING @ IIL

Experiential Learning is the process of learning through experience. Students may struggle to grasp concepts that don't pertain to the "real world." With experiential learning, students are given the opportunity to apply data and ideas in a real-world situation where they too play an active role. As the student interacts with the information, it becomes real to them.
