S-072 2

|    | (B) | Answ  | Answer the following questions in <i>one</i> sentence:              |          |
|----|-----|-------|---|----------|
|    |     | (1)   | What does the minimum and maximum marks on the dipstick             | Ξ        |
|    |     |       | indicate ?  |          |
|    |     | (2)   | List any two assistance provided by customer service.               |          |
|    |     | (3)   | Define clearance volume.  |          |
|    | (C) | Answ  | ver the following questions in two sentences:                       | ŀ        |
|    |     | (1)   | Explain Bench vice.   |          |
|    |     | (2)   | State any two functions of front axle.                              |          |
| 2. | (A) | Choo  | se and write the <i>correct</i> alternatives from the options given | ì        |
|    |     | below | <i>7</i> :  | <b>;</b> |
|    |     | (1)   | The total piston displacement is also known as                      |          |
|    |     |       | (a) clearance volume  |          |
|    |     |       | (b) swept volume  |          |
|    |     |       | (c) compression ratio   |          |
|    |     |       | (d) stroke  |          |
|    |     | (2)   | A grease gun is a common workshop tool used for                     |          |
|    |     |       | (a) cooling   |          |
|    |     |       | (b) lubrication   |          |
|    |     |       | (c) painting  |          |
|    |     |       | (d) washing   |          |
|    |     |       |   |          |

| (3) | In           | system the fuel tank is mounted at the                       |
|-----|--------------|--|
|     | highe        | est position from where fuel drops into the carburetor float |
|     | cham         | ber.   |
|     | (a)          | gravity system   |
|     | ( <i>b</i> ) | pressure system  |
|     | (c)          | vacuum system  |
|     | (d)          | pump system  |
| (4) | Oil le       | evel in the engine is checked by                             |
|     | (a)          | oil filler cap   |
|     | ( <i>b</i> ) | measuring cup  |
|     | (c)          | hydrometer   |
|     | (d)          | dipstick   |
| (5) | Rollin       | ng resistance depends upon                                   |
|     | (a)          | direction of wind  |
|     | ( <i>b</i> ) | slope of the road  |
|     | (c)          | material of the road surface                                 |
|     | (d)          | driving habits   |
| (6) | The a        | air filter is changed after every                            |
|     | (a)          | 50,000 kms   |
|     | ( <i>b</i> ) | 10,000 kms   |
|     | (c)          | 1,00,000 kms   |
|     | (d)          | 5,000 kms  |

S-072 4

|    |     | (1)  | Write the full form of IHP related to engine.                    |
|----|-----|------|--|
|    |     | (2)  | Name the special tool which is used to apply specific torque for |
|    |     |      | nut or bolt.   |
|    |     | (3)  | State any two aspects of customer service.                       |
|    | (C) | Answ | ver the following questions in two sentences:                    |
|    |     | (1)  | What precautions has to be taken during washing? (any two)       |
|    |     | (2)  | Explain the following innovations made in automobile:            |
|    |     |      | (a) Sensitive air bag system                                     |
|    |     |      | (b) Tyre pressure monitoring system.                             |
| 3. | (A) | Answ | ver the following questions in one sentence:                     |
|    |     | (1)  | Why separators are placed between positive and negative plates   |
|    |     |      | in the battery?  |
|    |     | (2)  | Name any two types of universal joint.                           |
|    |     | (3)  | Write any two points on how clogged fuel filter affects the      |
|    |     |      | engine.  |
|    | (B) | Answ | ver the following questions in two sentences:                    |
|    |     | (1)  | Classify the engine according to the following:                  |
|    |     |      | (a) Arrangement of cylinders                                     |
|    |     |      | (b) Type of ignition   |
|    |     | (2)  | Define the terms "Sprung weight" and "Dipping" related with      |
|    |     |      | suspension system.   |
|    |     |      |  |

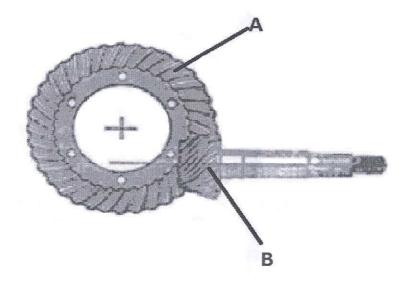

Answer the following questions in *one* sentence :

3

(B)

(C) Draw the given image of final drive and label (A) and (B).
