7. Read the passage and answer the questions that follow :- [4]

Floods are second only to fire as the most common of all natural disasters. They occur almost everywhere in the world, resulting in

widespread damage and even death. Consequently, scientists have long tried to perfect their ability to predict floods. So far, the best that scientists can do is to recognize the potential for flooding in certain conditions. There are a number of conditions, from deep snow on the ground to human error, that cause flooding.

**Questions:-**

- i) What are the most common of all natural disasters?
- ii) What can the scientists at best do?
- iii) What are the consequence of flood?
- iv) Make sentences with : Condition; Disaster.

OR

Write a précis of the following passage and give a suitable title.

Man has many limitations. He is a mixture of good and evil. Naturally he commits mistakes, otherwise he would be a god. We have the example of Jesus Christ. He forgave his tormentors. He believed that they were ignorant and therefore, they tortured him. His greatness lay in his spirit of forgiveness. His life teaches us that we must forgive the wrong-doer. By ignoring his mistakes, we give him a chance to reform. We rise to godliness by forgiving others and showing mercy to them.
