Biology

Total Marks: 70

BOARD QUESTION PAPER : JULY 2019

BIOLOGY

Time: 3 Hours

Note:

- i. All questions are compulsory.
- ii. Draw neat and labelled diagrams wherever necessary.
- iii. Question paper consists of 30 questions divided into FOUR sections namely A, B, C and D.
- iv. <u>Section A:</u> Contains Q. Nos. 1 to 4 of multiple choice type of questions carrying one mark each and Q. No. 5 to 8 are very short answer type of questions carrying one mark each.
- v. <u>Section B:</u> Contains Q. Nos. 9 to 18 of short answer type questions carrying two marks each. Internal choice is provided only to one question.
- vi. <u>Section C:</u> Contains Q. Nos. 19 to 27 of short answer type of questions carrying three marks each. Internal choice is provided only to one question.
- vii. <u>Section D:</u> Contains Q. Nos. 28 to 30 of long answer type of questions carrying five marks each. Internal choice is provided to each question.
- viii. For each MCQ, correct answer must be written along with its alphabet,

- ix. In case of MCQs, (i.e. Q. No. 1 to 4) evaluation would be done for the first attempt only.
- x. Answer each section on a new page.

Morphine

(C)

xi. Figures to the right indicate full marks.

SECTION – A

Smack

[8]

- Q.1. _____ drug is used for patients who have undergone surgery. (1)
 - (A) Marijuana (B)
 - (D) Cannabinoids

Q.2.	Name the process by which all the three types of non-genetic RNAs are produced on DNA template.						
	(A)	Translation	(B)	Transcription			
	(C)	Termination	(D)	Replication			
Q.3.	Which of the animal groups show uricotelism?						
	(A)	Snake, rat, terrestrial insect					
	(B)	Penguin, reptile, snail					
	(C)	Land snail, bird, lizard					

(D) Tadpole larva of frog, marine fish, spider

Q.4.	Approximately how many eggs an	re produced by a norma	al healthy human female up to the age of		
	25 years if the age of menarche is	12 years		(1)	
	(A) 169	(B)	416		
	(C) 240	(D)	100		
Q.5.	5. Name the process in which a tumour successfully spreads to the other parts of the body, grows destroys healthy tissues.				

Q.6. What is humification?

- **Q.7.** Name the sexually transmitted disease caused by *Treponema pallidum*.
- Q.8. Which is the process that removes introns from RNA?

(1) 1

Board Question	Paper	: Jul	y 2019
----------------	-------	-------	--------

iv. Pectinase

Q.14 Sketch and label hairpin model of tRNA.

А

Q.15 Identify and write the names of given diagrams A, B, C and D.

В

SECTION – B

[20]

(2)

(2)

(**A**)

(2)

(3)

0.9 Define fermentation. Write the names of substrate of alcoholic and lactic acid fermentation						(2)	
Q.3. Define fermentation. while the names of substrate of alcoholic and factic acid fermentation.					are dela fermentation.	(2)	
Q.10.	Com	plete the follo	wing chart an	d rev	vrite it:		(2)
	(Genotype	Phenotyr)e	1		
	I	^A I ^A or I ^A i	·J I		1		
			B				
		I ^A I ^B			-		
			0		-		
					1		
Q.11 Your friend wants to start a business of Apiculture. Enlist the equipment he would need.						ent he would need.	(2)
Q.12	Give	the role of					(2)
i. Tissue plasminogen activator (TPA)							
ii. Tissue growth factor-Beta (TGF- β) in Gene therapy.							
0.13							(2)
Q.15	wate		ig and rewrite	<i>π</i> .			(2)
		Grou	р 'А'		Group 'B'		
	i.	Invertase		a.	Trichoderma konigi]	
	ii.	Lipase		b.	Saccharomyces cerevisiae]	
	iii.	Cellulase		c.	Sclerotinia libertinia]	

C OR

d. *Rhizopus* spp.

Dilip and Mohsin measured their blood pressure. Dilip's B.P. is 120/80 mmHg and Mohsin's B.P. is 160/100 mmHg. Who is suffering from hypertension? What are its causes?

Q.16	6 Give the functions of Kidney.					
Q.17	Give		(2)			
	i.	Eustachian valve	ii.	Thebesian valve		
	iii.	Bicuspid valve	iv.	Tricuspid valve		

Q.18 Define Green House Gases. Give any two examples.

0 7 7 1 1

- Q.19 Explain Homologous and Analogous organs with example.
- Q.20 A homozygous tall pea plant is crossed with its homozygous recessive parent. Find out the genotypic and phenotypic ratio with the help of Punnet square method. (3)
- Q.21 Sketch and label the structure of Malpighian body and explain the structure of Bowman's capsule. (3)

Q.22 Write down the names of missing intermediate compounds in a sequence in the given diagrammatic representation of Kreb's cycle.

Q.23 Define jumping genes. Classify them on the basis of their mechanism.

Q.24 Identify A, B, C in the given diagram and give their functions:

Explain various mechanical methods of birth control.

- Q.25 Identify disorders developed in the given genotypes and give two symptoms of each:
 - i. 44 + XO
 - ii. 44 + XXY

(3)

(3)

(3)

Board Question Paper : July 2019

Q.26 Name the interaction in:

- i. Lichen
- ii. Sucker fish and shark
- iii. A protozoan living in the digestive tract of a flea living on a dog.
- **Q.27** Given an account of various steps involved in tissue culture.

(3)

(3)

(5)

(5)

Q.28 Give the diagrammatic representation of HSK-pathway and answer the following questions:

- i. Why is photorespiration avoided in C₄ pathways?
- ii. Give any two examples of C₄ plants.
- iii. Name the CO₂ acceptor in mesophyll cells during HSK pathway.

OR

Identify and explain with the help of diagrammatic representation, type of photophosphorylation in which P_{700} (PS II) and P_{680} (PS I) both are involved.

- **Q.29** Give reasons:
 - i. Pituitary gland was formerly called as 'master endocrine gland'.
 - ii. Oxytocin is 'birth hormone'.
 - iii. People living in hilly region are advised to use iodised salt.
 - iv. Old age persons show weakened immune response.
 - v. Pancreas is a dual gland.

OR

Describe functional areas of cerebrum with the help of neat and labelled diagram.

Q.30	Define pollination.	Explain di	ifferent types of self a	nd cross pollination with	n suitable examples.	(5))
------	---------------------	------------	--------------------------	---------------------------	----------------------	-----	---

OR

Sketch and label the V.S. of anatropous ovule and answer the following questions:

- i. How many mitotic divisions are required to produce embryo sac?
- ii. Which part of ovule is converted into seed coat?
- iii. Which part provides the passage for entry of pollen tube during fertilization?
