

General Aptitude (GA)

Q.1 – Q.5 Carry ONE mark Each

Q.1	Rafi told Mary, "I am thinking of watching a film this weekend." The following reports the above statement in indirect speech: Rafi told Mary that he of watching a film that weekend.
(A)	thought
(B)	is thinking
(C)	am thinking
(D)	was thinking

Q.2	Permit : : : Enforce : Relax (By word meaning)
(A)	Allow
(B)	Forbid
(C)	License
(D)	Reinforce

Q.3	Given a fair six-faced dice where the faces are labelled '1', '2', '3', '4', '5', and '6', what is the probability of getting a '1' on the first roll of the dice and a '4' on the second roll?
(A)	$\frac{1}{36}$
(B)	$\frac{1}{6}$
(C)	<u>5</u> 6
(D)	$\frac{1}{3}$

Q.4	A recent survey shows that 65% of tobacco users were advised to stop consuming tobacco. The survey also shows that 3 out of 10 tobacco users attempted to stop using tobacco. Based only on the information in the above passage, which one of the following options can be logically inferred with <i>certainty</i> ?
(A)	A majority of tobacco users who were advised to stop consuming tobacco made an attempt to do so.
(B)	A majority of tobacco users who were advised to stop consuming tobacco did not attempt to do so.
(C)	Approximately 30% of tobacco users successfully stopped consuming tobacco.
(D)	Approximately 65% of tobacco users successfully stopped consuming tobacco.

Q.5	How many triangles are present in the given figure?
(A)	12
(B)	16
(C)	20
(D)	24

Q.6 – Q.10 Carry TWO marks Each

Q.6	Students of all the departments of a college who have successfully completed the registration process are eligible to vote in the upcoming college elections. However, by the time the due date for registration was over, it was found that suprisingly none of the students from the Department of Human Sciences had completed the registration process.
	Based only on the information provided above, which one of the following sets of statement(s) can be logically inferred with <i>certainty</i> ?
	 (i) All those students who would not be eligible to vote in the college elections would certainly belong to the Department of Human Sciences. (ii) None of the students from departments other than Human Sciences failed to complete the registration process within the due time. (iii) All the eligible voters would certainly be students who are not from the Department of Human Sciences.
(A)	(i) and (ii)
(B)	(i) and (iii)
(C)	only (i)
(D)	only (iii)

Q.7	Which one of the following options represents the given graph?
	f(x)
(A)	$f(x) = x^2 2^{- x }$
(B)	$f(x) = x 2^{- x }$
(C)	$f(x) = x 2^{-x}$
(D)	$f(x) = x 2^{-x}$

Q.8	Which one of the options does NOT describe the passage below or follow from it?
	We tend to think of cancer as a 'modern' illness because its metaphors are so modern. It is a disease of overproduction, of sudden growth, a growth that is unstoppable, tipped into the abyss of no control. Modern cell biology encourages us to imagine the cell as a molecular machine. Cancer is that machine unable to quench its intial command (to grow) and thus transform into an indestructible, self-propelled automaton. [Adapted from <i>The Emperor of All Maladies</i> by Siddhartha Mukherjee]
(A)	It is a reflection of why cancer seems so modern to most of us.
(B)	It tells us that modern cell biology uses and promotes metaphors of machinery.
(C)	Modern cell biology encourages metaphors of machinery, and cancer is often imagined as a machine.
(D)	Modern cell biology never uses figurative language, such as metaphors, to describe or explain anything.

Q.9	The digit in the unit's place of the product $3^{999} \times 7^{1000}$ is
(A)	7
(B)	1
(C)	3
(D)	9

Reasoning and Comprehension (XH-B1)

XH-B1: Q.11 – Q.17 Carry ONE mark Each

Q.11	Which word below best describes the idea of being both Spineless and Cowardly?
(A)	Pusillanimous
(B)	Unctuous
(C)	Obsequious
(D)	Reticent
Q.12	Choose the right preposition to fill up the blank:
	The whole family got together Diwali
(A)	of
(B)	at
(C)	in
(D)	till

Q.13	Select the correct option to fill in all the blanks to complete the passage:
	The (i) factor amid this turbulence has been the (ii) of high- octane, action-oriented films such as RRR, K.G.F: Chapter 2 and Pushpa from film industries in the south of the country. Traditionally, films made in the south have done well in their own (iii) But increasingly, their dubbed versions have performed well in the Hindi heartland, with collections (iv) those of their Bollywood counterparts.
(A)	(i) disheartening (ii) failure (iii) channels (iv) matching
(B)	(i) redeeming (ii) outperformance (iii) geographies (iv) eclipsing
(C)	(i) shocking (ii) underperformance (iii) cinemas (iv) below
(D)	(i) humbling (ii) bombing (iii) theatres (iv) falling behind

 Q.14 passage are at their correct positions, while the middle four sentences (represented by 2, 3, 4, and 5) are jumbled up. Choose the correct sequence of the sentences so that they form a coherent paragraph: Most obviously, mobility is taken to be a geographical as well as a social phenomenon. Much of the social mobility literature regarded society as a uniform surface and failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. Moreover, not only people are mobile but so too are many 'objects'. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2		The following passage consists of 6 sentences. The first and sixth sentences of the
 by 2, 3, 4, and 5) are jumbled up. Choose the correct sequence of the sentences so that they form a coherent paragraph: 1. Most obviously, mobility is taken to be a geographical as well as a social phenomenon. 2. Much of the social mobility literature regarded society as a uniform surface and failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 	Q.14	passage are at their correct positions, while the middle four sentences (represented
 Choose the correct sequence of the sentences so that they form a coherent paragraph: 1. Most obviously, mobility is taken to be a geographical as well as a social phenomenon. 2. Much of the social mobility literature regarded society as a uniform surface and failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3.2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		by 2, 3, 4, and 5) are jumbled up.
 paragraph: 1. Most obviously, mobility is taken to be a geographical as well as a social phenomenon. 2. Much of the social mobility literature regarded society as a uniform surface and failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		Choose the correct sequence of the sentences so that they form a coherent
 I. Most obviously, mobility is taken to be a geographical as well as a social phenomenon. 2. Much of the social mobility literature regarded society as a uniform surface and failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		paragraph:
 1. Most obviously, mobility is taken to be a geographical as well as a social phenomenon. 2. Much of the social mobility literature regarded society as a uniform surface and failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		
 phenomenon. 2. Much of the social mobility literature regarded society as a uniform surface and failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		1. Most obviously, mobility is taken to be a geographical as well as a social
 2. Much of the social mobility literature regarded society as a uniform surface and failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		phenomenon.
 failed to register the geographical intersections of region, city and place, with the social categories of class, gender and ethnicity. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. Moreover, not only people are mobile but so too are many 'objects'. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		2. Much of the social mobility literature regarded society as a uniform surface and
 the social categories of class, gender and ethnicity. 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		failed to register the geographical intersections of region, city and place, with
 3. The existing sociology of migration is incidentally far too limited in its concerns to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of pople are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		the social categories of class, gender and ethnicity.
 to be very useful here. 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		3. The existing sociology of migration is incidentally far too limited in its concerns
 4. Further, I am concerned with the flows of people within, but especially beyond, the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		to be very useful here.
 the territory of each society, and how these flows may relate to many different desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		4. Further, I am concerned with the flows of people within, but especially beyond,
 desires, for work, housing, leisure, religion, family relationships, criminal gain, asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		the territory of each society, and how these flows may relate to many different
 asylum seeking and so on. 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		desires, for work, housing, leisure, religion, family relationships, criminal gain,
 5. Moreover, not only people are mobile but so too are many 'objects'. 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		asylum seeking and so on.
 6. I show that sociology's recent development of a 'sociology of objects' needs to be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		5. Moreover, not only people are mobile but so too are many 'objects'.
 be taken further and that the diverse flows of objects across societal borders and their intersections with the multiple flows of people are hugely significant. (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		6. I show that sociology's recent development of a 'sociology of objects' needs to
their intersections with the multiple flows of people are hugely significant.(A)3, 2, 5, 4(B)2, 3, 4, 5(C)5, 4, 3, 2		be taken further and that the diverse flows of objects across societal borders and
 (A) 3, 2, 5, 4 (B) 2, 3, 4, 5 (C) 5, 4, 3, 2 		their intersections with the multiple flows of people are hugely significant.

Q.15	The population of a country increased by 5% from 2020 to 2021. Then, the population decreased by 5% from 2021 to 2022. By what percentage did the population change from 2020 to 2022?
(A)	-0.25%
(B)	0%
(C)	2.5%
(D)	10.25%
Q.16	The words Thin: Slim: Slender are related in some way. Identify the correct option(s) that reflect(s) the same relationship:
(A)	Fat: Plump: Voluptuous
(B)	Short: Small: Petite
(C)	Tall: Taller: Tallest
(D)	Fair: Dark: Wheatish

Q.17	A pandemic like situation hit the country last year, resulting in loss of human life and economic depression. To improve the condition of its citizens, the government made a series of emergency medical interventions and increased spending to revive the economy. In both these efforts, district administration authorities were actively involved. Which of the following action(s) are plausible?
(A)	In future, the government can make district administration authorities responsible for protecting health of citizens and reviving the economy.
(B)	The government may set up a task force to review the post pandemic situation and ascertain the effectiveness of the measures taken.
(C)	The government may set up a committee to formulate a pandemic management program to minimize losses to life and economy in future.
(D)	The government may take population control measures to minimize pandemic related losses in future.

XH-B1: Q.18 – Q.26 Carry TWO marks Each

Q.18	Six students, Arif, Balwinder, Chintu, David, Emon and Fulmoni appeared in the GATE-XH exam in 2022. Balwinder scores less than Chintu in XH-B1, but more than Arif in XH-C1. David scores more than Balwinder in XH-C1, and more than Chintu in XH-B1. Emon scores less than David, but more than Fulmoni in XH-B1. Fulmoni scores more than David in XH-C1. Arif scores less than Emon, but more than Fulmoni in XH-B1. Who scores highest in XH-B1?
(A)	Fulmoni
(B)	Emon
(C)	David
(D)	Chintu
Q.19	Select the correct relation between E and F.
	$E = \frac{x}{1+x}$ and $F = \frac{-x}{1-x}$ $x > 1$
(A)	E > F
(B)	E < F
(C)	$\mathbf{E} = \mathbf{F}$
(D)	E < -F

Q.20	A code language is formulated thus:
	Vowels in the original word are replaced by the next vowel from the list of vowels, A-E-I-O-U (For example, E is replaced by I and U is replaced by A). Consonants in the original word are replaced by previous consonant (For example, T is replaced by S and V is replaced by T). Then how does the word, GOODMORNING appear in the coded language?
(A)	HUUFNUSPOPH
(B)	FIICLIQMEMF
(C)	FUUCLUQMOMF
(D)	HEEDATTACRH

	_
Q.21	The stranger is by nature no "owner of soil" soil not only in the physical, but also
	in the figurative sense of a life-substance, which is fixed, if not in a point in space,
	at least in an ideal point of the social environment. Although in more intimate
	relations, he may develop all kinds of charm and significance, as long as he is
	considered a stranger in the eyes of the other, he is not an "owner of soil."
	Restriction to intermediary trade, and often (as though sublimated from it) to pure
	finance, gives him the specific character of mobility. If mobility takes place within
	a closed group, it embodies that synthesis of nearness and distance which constitutes
	the formal position of the stranger. For, the fundamentally mobile person comes in
	contact, at one time or another, with every individual, but is not organically
	connected, through established ties of kinship, locality, and occupation, with any
	single one.
	What assumptions can be made about the stranger from the passage above?
(Δ)	The stranger can become an owner of soil through developing all kinds of charm in
(11)	more intimate relations.
(B)	The stranger cannot become an owner of soil either in the physical or psychological
	sense.
(\mathbf{C})	The stronger can become an experience of soil through establishing tics of kinchin and
(C)	so on.
(D)	The stranger might become an owner of soil in the physical sense but not in the
	psychological

Q.22	L is the only son of A and S. S has one sibling, B, who is married to L's aunt, K. B is the only son of D. How are L and D related?
	Select the possible option(s):
(A)	Grandchild and Paternal Grandfather
(B)	Grandchild and Maternal Grandfather
(C)	Grandchild and Paternal Grandmother
(D)	Grandchild and Maternal Grandmother

~ ~ ~ ~	Five segments of a sentence are given below. The first and fifth segments are at
Q.23	their correct positions, while the middle three segments (represented by 2, 3, and 4)
	are jumbled up. Choose the correct order of the segments so that they form a
	coherent sentence:
	 Consumed multitudes are jostling and shoving inside me and guided only by the memory of a large white bedsheet with a roughly circular hole some seven inches in diameter cut into the center, clutching at the dream of that holey, mutilated square of linen, which is my talisman, my open-sesame, I must commence the business of remaking my life from the point at which it really began,
	5. some thirty-two years before anything as obvious, as present, as my clock-ridden, crime-stained birth.
(A)	2 - 3 - 4
(B)	3-2-4
(C)	4 - 2 - 3
(D)	4 - 3 - 2

Q.24	"I told you the truth," I say yet again, "Memory's truth, because memory has its own special kind. It selects, eliminates, alters, exaggerates, minimizes, glorifies, and vilifies also; but in the end it creates its own reality, its heterogeneous but usually coherent versions of events; and no sane human being ever trusts someone else's version more than his own." What are the different ways in which 'truth' can be understood from the passage?
(A)	Truth is what can be verified by hard empirical evidence.
(B)	Truth is based on what can be perceived by the senses.
(C)	Truth is the product of memory that is fallible, selective and slanted.
(D)	Truth is contingent on the observer and can only be partial.
Q.25	A firm needs both skilled labour and unskilled labour for the production of cloth. The wage of skilled labour is Rs. 40,000 per month, and that of unskilled labour is Rs. 15,000 per month. The total wage bill of the firm for the production of cloth is Rs. 23,75,000 in a month for 100 labour. How many skilled labour are employed by the firm (<i>in Integer</i>)?
Q.26	Select the odd word and write the option number as answer: (1) Lek (2) Zloty (3) Diner (4) Drachma (5) Real

Economics – C1

XH-C1: Q.27 – Q.44 Carry ONE mark Each

Q.27	An individual is endowed with income of Rs. 142 and has the utility function $U(x_1, x_2) = x_2(x_1 + 1)$, where $x_1 \ge 0$, $x_2 \ge 0$. The unit price of x_1 is Rs. 2 and the unit price of x_2 is Rs. 3. The utility maximizing bundle is
(A)	$x_1 = 35, x_2 = 20$
(B)	$x_1 = 30, x_2 = 24$
(C)	$x_1 = 35, x_2 = 24$
(D)	$x_1 = 30, x_2 = 20$
Q.28	The International Monetary Fund (IMF) began operations in the year
(A)	1942
(B)	1947
(C)	1945
(D)	1940

Q.29	According to the <i>Working Group on Money Supply: Analytics and Methodology of Compilation</i> (1998) constituted by the Reserve Bank of India (RBI), which of the following is NOT a component of the new monetary aggregate NM ₁ ?
(A)	Currency with the public
(B)	Demand deposits with the banking system
(C)	Short-term time deposits of residents
(D)	'Other' deposits with the RBI
Q.30	Stagflation is a situation when
(A)	both unemployment and inflation are low
(B)	both unemployment and inflation are high
(C)	unemployment is high but inflation is low
(D)	unemployment is low but inflation is high

Consider the Keynesian consumption function $C = \alpha + \beta Y$, where <i>C</i> is the aggregate consumption, <i>Y</i> is the aggregate income, α is a constant ($\alpha > 0$), and β is the marginal propensity to consume ($0 < \beta < 1$). Then, the average propensity to consume is
α
$\frac{\alpha}{Y} + \beta$
$\alpha Y + \beta Y^2$
$\alpha + \frac{\beta}{Y}$
An analyst regressed Y on X_1 and X_2 . If she later noticed that $X_1 = 5X_2$, then which of the following assumptions of the classical linear regression model was violated?
Homoscedasticity
No Perfect Multicollinearity
No Autocorrelation
Linearity in parameters

Q.33	Which of the following is NOT an example of non-tariff barriers?
(A)	Voluntary export restraint
(B)	A procurement law directing a government to buy domestically made products unless comparable foreign made products are substantially cheaper.
(C)	Imposition of sanitary and phytosanitary measures on agricultural produce.
(D)	An antidumping law
Q.34	Among the following, who first proposed that internal government debt does not create a burden for the future generation?
(A)	N. Gregory Mankiw
(B)	Martin Feldstein
(C)	Harvey S. Rosen
(D)	A. P. Lerner

Which of the following is an example of direct tax?
Sales tax
Customs duty
Individual income tax
Excise tax
In the context of endogenous growth theory, the Nobel laureate Paul Romer emphasized that "ideas" are
non-rival
rival with medium degree of excludability
rival with high degree of excludability
rival with low degree of excludability

Q.37	In the Human Development Index (HDI), the longevity is measured by
(A)	child survival rate
(B)	healthy life expectancy
(C)	disability-adjusted life years
(D)	life expectancy at birth
Q.38	Which of the following statements is correct about the Fourteenth Finance Commission?
(A)	The Commission was chaired by Dr. C. Rangarajan.
(B)	The Commission recommended achieving 90 percent metering of electricity by the end of the year 2012.
(C)	The Commission recommended an increase in the share of tax devolution to states to 42 percent of the divisible pool.
(D)	The Commission was mandated to make recommendations for the period 2010-2015.

Q.41	Which of the following is/are used for testing the assumption of normality?
(A)	Shapiro-Wilk test
(B)	Breusch-Godfrey test
(C)	Jarque-Bera test
(D)	Park test
Q.42	Suppose Amar borrows Rs. 1000 from Ujala. After one year, Ujala wants Rs. 1100 back from Amar. The yield to maturity in percent (%) on this borrowing is (round off to one decimal place).
Q.43	A 250 ml bottle of mango juice costs USD 4 in the United States. If the exchange rate is 0.02 USD per Rupee, then the cost of the same bottle of mango juice in Rupees would be (<i>in integer</i>).

Q.44	The fe 2010	ollowing table provides po and 2017.	opulation information	for different age groups ir	n
		Age group	Population in 2010	Population in 2017	
		0 to 14 years	201630	213609

XH-C1: Q.45–Q.65 Carry TWO marks Each

Q.45	A firm in a market with perfect competition has the following total cost (TC) function:
	TC(Q) = a + b(Q)
	where Q is the quantity produced by the firm, a is the fixed cost and $b(Q)$ is the variable cost. What will happen if the fixed cost increases?
(A)	In the short-run, the firm's Average Variable Cost (AVC) curve will shift upwards.
(B)	In the short-run, the firm's Average Total Cost (ATC) curve will shift upwards.
(C)	The firm will earn higher profits.
(D)	In the short-run, the firm's Marginal Cost (MC) curve will shift upwards.
Q.46	The emission of greenhouse gases is an example of "bads" that are
(A)	rival and excludable
(B)	non-rival and excludable
(C)	rival and non-excludable
(D)	non-rival and non-excludable

Q.47	Consider a closed-economy IS-LM model. The IS and LM equations are
	$Y = C(Y) + I(z) + \bar{G}$
	$\frac{\overline{M}}{\overline{P}} = k \ Y - l \ i$
	where <i>Y</i> is the output, <i>C</i> is the consumption $(C' > 0)$, <i>I</i> is the investment $(I' < 0)$, $z \equiv i - \pi^e$, <i>i</i> is the nominal interest rate, π^e is the expected inflation, \overline{G} is the government purchases, $\frac{\overline{M}}{\overline{P}}$ is the fixed real money balances, and <i>k</i> and <i>l</i> are positive constants.
	Suppose everyone in the economy suddenly expects the inflation to rise in the future. Assuming that the LM curve remains unchanged, what will happen in the short-run?
(A)	Equilibrium Y increases.
(B)	Aggregate demand remains unchanged.
(C)	Equilibrium Y remains unchanged.
(D)	Aggregate demand shifts down.

Q.48	Consider the following simultaneous equations model:
	$Y_t = \beta_1 + \beta_2 X_t + \beta_3 X_{t-1} + \beta_4 Z_t + \mu_{1t} $ (1)
	$Z_t = \delta_1 + \delta_2 Y_t + \delta_3 W_t + \mu_{2t} \tag{2}$
	Before estimating the above model, a researcher performed the test of identification using order and rank conditions, and found that equation (2) is overidentified. Then, which of the following methods is appropriate to estimate equation (2) ?
(A)	Two-Stage Least Squares
(B)	Indirect Least Squares
(C)	Weighted Least Squares
(D)	Ordinary Least Squares

p

Q.50	Match	the following:			
		Demographic Transition Stage		Feature	
		Ι	P.	High fertility and high mortality	
		II	Q.	Declining fertility	
		III	R.	Stationary population	
		IV	S.	Declining mortality	
(A)	$I \rightarrow P$; II \rightarrow Q ; III \rightarrow R ; I	$V \rightarrow S$		
(B)	$I \rightarrow P ; II \rightarrow S ; III \rightarrow Q ; IV \rightarrow R$				
(C)	$I \rightarrow R ; II \rightarrow S ; III \rightarrow Q ; IV \rightarrow P$				
(D)	$I \rightarrow S$; II \rightarrow P ; III \rightarrow R ; Γ	$V \rightarrow Q$		

Q.51	Consider two countries, India and Bangladesh, and two goods, Glass Bottle and Ceramic Plate, with labour requirements of production for a unit of each good given below:						
		Labour	Labour hours required per unit of production				
			Glass Bottle	Ceramic Plate			
		India	2 hours	3 hours			
		Bangladesh	3 hours	9 hours			
	Which of th	ne following op	ptions is/are correct?	,			
(A)	India has an absolute advantage in Glass Bottle production and a comparative disadvantage in Glass Bottle production.						
(B)	India has ar disadvantag	n absolute adva ge in Ceramic I	antage in Ceramic Pl Plate production.	ate production and a co	mparative		
(C)	India has ar disadvantag	n absolute adva ge in Glass Bot	antage in Ceramic Pl ttle production.	ate production and a co	mparative		
(D)	India has ar disadvantag	n absolute adva ge in Ceramic I	antage in Glass Bottl Plate production.	e production and a com	parative		

Q.52	Suppose the own price elasticity of demand and income elasticity of demand are given by e_p and e_I , respectively. The subscript p represents own price of a good and the subscript I represents the income of the consumer. Identify the correct statement(s) from the following.
(A)	If $1 < e_p < \infty$, the demand is price inelastic.
(B)	Luxury goods are more price inelastic and the necessities are price elastic.
(C)	Luxury goods have $e_I > 1$.
(D)	If $0 < e_p < 1$, the demand is price elastic.
Q.53	Let π^e be the expected inflation rate, <i>i</i> be the nominal interest rate and <i>r</i> be the real interest rate. Which of the following statements is/are correct?
(A)	For small values of r and π^e , $r \approx i - \pi^e$.
(B)	When real interest rate is low, there are greater incentives to borrow and fewer incentives to lend.
(C)	Real interest rate reflects the real cost of borrowing.
(D)	If $i = 8\%$ and $\pi^e = 10\%$, then r is approximately (+) 2%.

Q.54	Which of the following models explain(s) the upward-sloping aggregate supply curve in the short-run?
(A)	Sticky-wage model
(B)	Worker-misperception model
(C)	Imperfect-information model
(D)	Solow model

Q.55	Consider a Mundell-Fleming model for a small open economy with perfect capital mobility. The goods market equation is
	$Y = C(Y) + I(r^*) + G + NX(e)$
	where <i>Y</i> is the output, <i>C</i> is the consumption $(C' > 0)$, <i>I</i> is the investment $(I' < 0)$, <i>G</i> is the government purchases, and <i>NX</i> is the net exports $(NX' < 0)$, r^* is the fixed world interest rate, and <i>e</i> is the exchange rate.
	The money market equation is
	$\frac{M}{\overline{P}} = k Y - l r^*$
	where <i>M</i> is the money supply, \overline{P} is the fixed price level, and <i>k</i> and <i>l</i> are positive constants.
	Which of the following policies is/are ineffective (i.e., have no impact on income) in the short-run?
(A)	Expansionary fiscal policy under floating exchange rate
(B)	Expansionary monetary policy under floating exchange rate
(C)	Expansionary fiscal policy under fixed exchange rate
(D)	Expansionary monetary policy under fixed exchange rate

Q.56	In the context of Balance of Payments accounting, which of the following transactions is/are NOT recorded under the Current Account?
(A)	Merchandise trade
(B)	Unilateral transfer payments
(C)	Purchase of international financial assets
(D)	Purchase of foreign currency by the central bank
Q.57	The demand and supply functions for a commodity are given by: D(p) = 10 - 2p and $S(p) = -2 + pwhere D(p) and S(p) are the quantity demanded and supplied, respectively, andp$ (in USD) is the unit price of the good. If the government sets a price ceiling of USD 3 per unit, then the increase in consumer surplus (in USD) is (round off to two decimal places).
Q.58	A duopoly faces the inverse market demand function $p = 120 - Q$, where p is the unit price (in Rs.) of the good being sold by firms A and B, and Q is the total output. Firm A has a constant marginal cost of Rs. 20, which is exactly half of firm B's constant marginal cost. There is no fixed cost for both the firms. If there exists a Cournot-Nash equilibrium, Q is (<i>in integer</i>).

Q.59	Consider the following short-run cost function:
	$C(q) = 10q^3 - 80q^2 + 300q + 50$
	At the minimum average variable cost (AVC), the value of marginal cost (MC) is (<i>in integer</i>).
Q.60	Consider the Keynesian Cross Model with a linear consumption function and a zero tax, where the government purchase is Rs. 100 and the equilibrium income is Rs. 1300. If the government purchase is increased to Rs. 125, the equilibrium income increases to Rs. 1400. Using the given information, the marginal propensity to consume is (<i>round off to two decimal places</i>).
Q.61	Using the Ordinary Least Squares (OLS) method, a researcher estimated the relationship between initial salary (S) of MBA graduates and their cumulative grade point average (<i>CGPA</i>) as
	$\hat{S}_i = \hat{\beta}_0 + \hat{\beta}_1 CGPA_i$; $i = 1, 2,, 100$
	where $\hat{\beta}_0 = 4543$ and $\hat{\beta}_1 = 645.08$. The standard errors of $\hat{\beta}_0$ and $\hat{\beta}_1$ are 921.79 and 70.01, respectively.
	The <i>t</i> -statistic for testing the null hypothesis $\beta_1 = 0$ is (round off to two decimal places).

Q.62	Let X be a random variable with the probability density function $f(x)$ such that
	$f(x) = \begin{cases} \frac{1}{2\sqrt{3}} & \text{if } -\sqrt{3} < x < \sqrt{3} \\ 0 & \text{otherwise} \end{cases}$
	, otherwise.
	Then, the variance of X is (<i>in integer</i>).
Q.63	Suppose from the estimation of a linear regression model
	$Y_i = \beta_0 + \beta_1 X_i + e_i$
	the residual sum of squares and the total sum of squares are obtained as 44 and 80, respectively. The value of coefficient of determination is (round off to two decimal places).
Q.64	A labour-augmenting production function is
	$Y = K^{0.33} (A L)^{0.67}$
	where $Y = $ output, $K = $ capital, $L = $ labour, and $A =$ technology.
	Assume that the growth rate of <i>L</i> is 1.2 percent per annum, the growth rate of <i>K</i> is 3 percent per annum, and the growth rate of <i>A</i> is 1.5 percent per annum. Using the growth-accounting approach, the growth rate of <i>Y</i> in percent per annum is (round off to two decimal places).

Q.65	A monopolist is facing the demand function $Q = \frac{100}{(P-1)}$, where Q is the quantity demanded and P is the price per unit of the good (P > 1). The average variable cost for the monopolist is $\frac{4}{\sqrt{Q}}$ and the fixed cost is 10. The profit maximizing price is (<i>in integer</i>).
