Punjab	11	3:5	4:5
UP	16	2:3	5:1
Kerala	10	1:5	3:2

If male population above Educational index in UP is 1.6 lakhs find the total population of UP in approx value (in lakhs)

- A. 3.69
- B. 2.28
- C. 2.96
- D. 3.67

Ans: 2.28

Imran sold a mobile phone for Rs. 17600 after a discount of 12%, he made a profit of 10%. If no discount is given, find the profit percentage.

- A. 12%
- B. 22%
- C. None
- D. 25%

Ans: 25%

$3+2=7$ ,  $51+?=76$ ,  $32-8=-32$ ,  $12+3=21$

Ans: 5

There are 4 positive numbers,  $\frac{1}{4}$ th of the average of all the numbers is 24 less than the value of the highest number. Average of the first 3 numbers is 32. Find the highest number.

- A. None
- B. 32
- C. 36

D. 34

Ans: 32

To select a group, an unbiased dice is rolled out. If the dice shows 1 then group x is chosen. If 2 or 3 is shown, group y is chosen and if 4, 5 or 6 is shown, group z is chosen. Group x has 3 girls and 2 boys, group y has 3 girls and 4 boys, and group z has 4 girls and 5 boys. The dice is rolled out and the group is chosen, if a girl is chosen then find the probability that is it chosen from group y.

A.  $90/293$

B.  $63/293$

C.  $7/90$

D. None

Ans:  $90/293$

A & B work 5 hours a day and complete work in 2 days. B and C work 5 hours a day and complete the same work in 4 days. A and C work 6 hours a day and complete the same in 2 days. How many days will A take to complete the work if he is working 5 hours a day alone?

A. 5

B. 12

C. 3

D. 15

Ans: 3

One person standing at 500 metres apart sees a pole at elevation angles  $30^\circ$  &  $75^\circ$ . Find the height of the pole. One person standing at 500 metres apart sees a pole at elevation angles  $30^\circ$  &  $75^\circ$ . Find the height of the pole.
