17. Read the following text carefully :

Decisions taken by factors of production in the production process often may affect the stakeholders indirectly. Such impacts at times are huge but are not accounted for, while estimating national income. Economists call them as externalities and they can be positive or negative.

In this regard, many economists suggest carbon pricing as an important tool to ensure ecological balance.

Carbon pricing tries to control greenhouse gas emissions by either placing a fee on emitting or offering subsidies on lesser emission. Through instruments like carbon tax, green cess, eco tax, etc. economists suggest moving towards greener technology eliminating such negative externalities.

On the basis of the given text and common understanding, answer the following questions :

- |   |   |
|---|---|
| (i) Define externalities.                                       | 1 |
| (ii) Differentiate between positive and negative externalities. | 2 |
| (iii) Elaborate how and why carbon pricing should be promoted.  | 3 |

34. Read the following text carefully :

India's industrial policy since independence has been shaped broadly in terms of the Industrial Policy Resolution of 1948. It emphasized on the sole responsibility of the government in the matter of promoting, assisting and regulating the development of industries in the national interest. It envisaged an active and dominant role of public sector.

The next Industrial Policy Resolution was placed before the Parliament by the Prime Minister on 30<sup>th</sup> April, 1956. It suggested that, "There is a need for adoption of the socialist pattern of economy as the national objective, along with the need for planned and rapid development. It required that all industries of basic and strategic importance, or in public utility services, should be in the public sector.

Other industries which are essential and require investment on a massive scale (which only the State could provide) have also to be in the public sector. Thus, the State has to assume direct responsibility for the future development of industries."

This Resolution classifies industries into three categories :

- The first category given in Schedule A, consists of industries the future development of which will be the exclusive responsibility of the State.
- In the second category given in Schedule B, are industries which will be progressively State-owned. However, in them, private enterprise will also be expected to participate.
- The third category comprises all the remaining industries, the further development of which will be left to the initiative and enterprise of the private sector.

On the basis of the given text and common understanding, answer the following questions :

- (i) "The Government of India, in the initial years of economic development, emphasized on a greater role of the public sector in the industrial development."  
Justify the statement, giving reasons in support of your answer. 3
- (ii) Outline and discuss the classification of industries into various categories as per Industrial Policy Resolution, 1956. 3
