CMAT 2022 Question Paper

CMAT 2022 Logical Reasoning

1. A statement is followed by Assumption I and II. An assumption is considered to be taken for granted. Consider the statement and the assumptions and decide which of the assumptions is implicit in the statement.

Statement : The Government has decided to relocate all the brick kilns away from the city.

Assumption I : Pollution in the city is being caused only because of the brick Kilns in the city

Assumption II : Workers shall be able to travel daily to the new site of Brick Kilns

- Only assumption I is implicit
- Only assumption II is implicit
- Either assumption I or assumption II is implicit
- Neither of the assumption is implicit

Answer: B

Explanation:

The assumption I is not implicit and the assumption is implicit because without assuming this factor relocation will not make sense.

2. **Each of the five balls, such as Red, Blue, Yellow, Black and Green has a different weight. It is known that:**

Black ball is heavier than the Red and Blue balls.

Yellow ball is lighter than the Red ball.

Blue ball is heavier than the Red and Green balls.

Which ball could be the lightest one?

- Only Green
- Either Yellow or Green
- Only Yellow
- Either Yellow or Red

Answer: B

Explanation:

From statements (i) and (ii) we can infer that the black ball is heavier than the red, blue and yellow balls since the yellow ball is lighter than the red ball and the black ball is heavier than the red ball.

Similarly from statements (i) and (ii), we can conclude that the black ball is heavier than the green ball. Therefore, the black ball is the heaviest.

Now from statements (ii) and (iii), we can infer that the blue ball is the second heaviest.

It is given that the yellow ball is lighter than the red ball so the red ball cannot be the lightest ball.

Therefore the lightest ball is either the green ball or the yellow ball.

3. In a college 200 students are chosen randomly. 140 like tea and 120 like Coffee and 70 like both tea and coffee. How many like neither tea nor coffee?

- 20
- 30
- 50
- 10

Answer: D

Explanation:

Tea - A, Coffee - B

n(A ∪ B) = n(A) + n(B) - n (A ∩ B)

n(A ∪ B) = 140 + 120 - 70 = 190

Number of students who like tea or coffee = 190

Therefore, number of students who like neither tea nor coffee = 200 - 190 = 10

4. Complete the series; DIT, GMQ, KQM, PUH,_____

- VYB
- UYB
- VXC
- TUJ

Answer: A

Explanation:

Considering the first letters of each term.

There are 2 alphabets in between D and G (E and F).

There are 3 alphabets between G and K (H, I and J).

There are 4 alphabets between K and P (L, M, N, and O)

Hence, there will be 5 alphabets between P and the required letter. Thus, the required letter will be V (Q, R, S, T and U)

Considering the second letter of each term.

There are three alphabets between each of the second terms, I and M (J, K, L), M and Q (N, O, P), and Q and U (R, S, T).

Hence, there will be three terms between the required term and U, i.e., V, W, X. Thus, the required second term is Y.

5. **Ram travelled towards the East from his office. After travelling 10 Km, he took a right turn and covered 2 km. Then he took a 45 Degree turn in a clockwise direction and travelled 3 km. In which direction is he travelling now?**

- North East
- North
- South West
- South East

Answer: C

Explanation:

Ram travelled 10 km east and then he turned right which means he is travelling in the south direction now. He travels in the south direction for 2 km. Now he took a 45-degree turn in the clockwise direction which means he is now travelling in the south-west direction.

6. **Two statements are given below: one is labelled as Assertion (A) and the other is labelled as Reason (R)**

Assertion (A) : Money can resolve most of our problems.
Reason (R) : We are living in a hierarchical society.

In the light of the above statements, choose the most appropriate answer from the options given below

- Both (A) and (R) are correct and (R) is the correct explanation of (A)
- Both (A) and (R) are correct but (R) is NOT the correct explanation of (A)
- (A) is correct but (R) is not correct
- (A) is not correct but (R) is correct

Answer: B

Explanation:

In the given question, both assertion and reason are correct. Given two statements are not related to each other in any way. Therefore, the reason is not the explanation of assertion.

7. **Complete the series; FAQ, AQF, ____, FAQ, AQF**

- QAF
- QFA
- FQA
- AFQ

Answer: B

Explanation:

From the 2nd term onwards, 1st letter of every term is 2nd letter of the previous term.

2nd letter of every term is 3rd letter of the previous term.

3rd letter of every term is the 1st letter of the previous term.

2nd term is AQF so as per the above logic the third term will be QFA.

8. B, C, D, E, G, H are six persons sitting in a row, but not necessarily in the same order. Two persons are sitting between C and G. C is placed to the immediate left of B. D is the first one in the row. C and H are not sitting together. Which one/ones of the following represent/s the correct arrangement of their sitting?

        D,H,G,E,B,C

        D,C,B,H,G,E

        D,G,H,E,C,B

        D,G,E,H,C,B

- Arrangement (A) & (B) are correct.
- Arrangement (B) & (C) are correct.
- Arrangement (C) & (D) are correct.
- Arrangement (D) & (A) are correct.

Answer: B

Explanation:

C is to the immediate left of B but in option (A) B is to the immediate left of C so option (A) is eliminated.

C and H are not sitting together but in option (D) C and H are sitting together so option (D) is also eliminated.

9. 144 is related to 77 in the same way as 168 is related to_____.

- 87
- 88
- 65
- 89

Answer: D

Explanation:
144
$\frac{144}{2}+5=77$

Similarly,

168
$\frac{168}{2}+5=89$

10. A device classifies numbers according to the following criteria. The number must have

The number has five digits

First and last digits are perfect squares.

The middle digit is an odd number and it is an addition of first and last digits.

Second and fourth digits are the difference between first and third digits, third and fifth digits.

Which of the following numbers could be correct according to the conditions given above?

- 14514
- 94514
- 4494
- 93524

Answer: A

Explanation:

5 digit number - _ , _ , _ , _ , _

It is given that first and last digit is a perfect square, it can be 0, 1, 4, 9

It is mentioned that the middle digit is the sum of first and last digits; therefore, 9 cannot be one of the digits.

1,_,1,_,0

1,_,5,_,4

4,_,5,_,1

It is mentioned that the second and fourth digits are the difference between first and third digits, third and fifth digits. Therefore,

1,0,1,1,0

1,4,5,1,4

4,1,5,4

11. Select the pair which has following type of relationship;

Circle: Circumference

Square : Area

Cylinder : Volume

Rectangle : Perimeter

Prism : Sides

Answer: C

Explanation:

Circumference is the perimeter of the circle. Therefore, rectangle:perimeter is the correct option.

Find the odd one among the following:

- Cabbage
- Potato
- Onion
- Lettuce

Answer: B

Explanation:

Since the potato grows under the ground while the other three grow above the ground so the potato is the odd one out.

12. Six students P,Q,R,S,T and U are sitting around a Hexagonal table each at one corner and facing the center of the hexagon. P is second to the left of U, Q is the neighbor of R and S. T is second to the left of S. Who is sitting on the right of R?
- Q
- P
- S
- U

Answer: B

Explanation:

It is given that,

Q is neighbour of R and S, and T is to the second left of S. Therefore, the only possible arrangement is

It is given that P is to the second left of U.

Final arrangement:

P is to the right of R.

13. Complete the sequence: 24, ___, 48, 63

- 35
- 14
- 37
- 39

Answer: A

Explanation:

All the terms are of the form $x^2 - 1$

$5^2 - 1 = 24$, $7^2 - 1 = 48$, $8^2 - 1 = 63$ therefore $6^2 - 1 = 35$ is the correct answer.

14. A is the sister of B's father-in-law. A and C are siblings. D is the husband of B. What is the relationship between D and A?

- Sister-in-law
- Brother
- Aunt
- Mother-in-law

Answer: C

Explanation:

It is given that A is the sister of B's father-in-law and D is B's husband so from this we can conclude that A is the sister of D's father.

Therefore, A is D's aunt.

15. In the following question, two reasons R1 and R2 are provided after an assertion. Read the assertion and the reasons and find which of the reasons is possible.

Assertion : The 10th class result is very poor this year.

R1 : Number of students in 10th class have increased considerably

R2 : The students of 10th class belong to different sections of society.

- Only R1 is possible reason
- Only R2 is possible reason
- Neither R1 nor R2 are the reasons
- If both R1 and R2 are the possible reasons

Answer: C

Explanation:

None of the reasons is explaining why the 10th class result is very poor. So option C is the answer.
16. Suraj walked 6 m facing towards the west, then he took a left turn and walked a distance of 8 m. After this, he took a right turn and walked a distance of 6 m. He then walked for 10 m in the north-east direction. Approximately, how far is he from the starting point?

- 8 m
- 10 m
- 6 m
- 2 m

Answer: C

Explanation:

Plotting the course taken by Suraj, we get the below figure.

17. In a certain code language, '^' means 'is less than', '#' means 'is greater than' and '*' means 'is equal to' and given that a^b, c*d, and c#b, then which of the following is true?

- d^a
- b#d
- a*c
- a^b^c

Answer: D

Explanation:

a^b means a is less than b.

c*d means c is equal to d.

c#b means c is greater than b.

So from the above statements, we can conclude that c=d > b > a.

18. A,B,C,D,E and F are six members of a family. A is the mother of B, who is the husband of D. F is the brother of one of the parents of C. D is the daughter in law of E and has no siblings. C is the son of D. What is the relationship between C and A?

- ● Son
- ● Grandson
- ● Brother
- ● Brother in law

Answer: B

Explanation:

A is the mother of B and B is the husband of D so A is the mother-in-law of D.

D is the daughter-in-law of E which means that E is the husband of A and father of B.

C is the son of D, therefore C is the grandson of A and E.

CMAT 2022 Quantitative Techniques and Data Interpretation

1.   A batch of 50 students is divided into a ratio of Boys to Girls as 4:6. Average marks of Girls are 60 and Average marks of the batch is 62. What will the average marks of boys be?

(A) 61
(B) 63
(C) 62
(D) 65

Answer: D

Explanation:

Let the number of boys be 4x and the number of girls be 6x.
Given, 4x+6x = 50
x=5
Number of boys = 20 and number of girls = 30
Average marks of girls = 60
Total marks scored by girls = 60 × 30 = 1800
Average marks score by batch = 62
Total marks scored by batch = 62 × 50 = 3100
Marks scored by boys = 3100 - 1800 = 1300

Average marks of boys = 1300 = 65

2. Four sheep farmers rented a pasture, Anil grazed his 24 sheep for 3 months, Bimal 10 sheep for 5 months, Champak 35 sheep for 4 months and Damodar 21 sheep for 3 months. If Anil's share of rent is Rs. 720, what is the total rent of the pasture?
(A)   Rs.3,200
(B)   Rs.3,250
(C)   Rs.2,300
(D)   Rs.4,000

Answer: B

Explanation:

$A:B:C:D = 24(\frac{3}{12}):10(\frac{5}{12}):35(\frac{4}{12}):21(\frac{3}{12})$

$A:B:C;D = 6:\frac{25}{6}:\frac{35}{3}:\frac{21}{4}$

$A:B:C:D = 72:50:140:63$

Anil's rent = $\frac{72}{72+50+140+63} \times$ Total rent

$720 = \frac{72}{325} \times$ T

T = Rs 3,250

3. A copper wire having length of 243m and diameter 4 mm was melted to form a sphere. What is the diameter of the sphere?
(A)   17 m
(B)   18 cm
(C)   15 cm
(D)   20 cm

Answer: B

Explanation:

Volume of copper wire melted will be equal to the volume of the sphere.

Volume of copper wire = Area $\times$ length = $\pi \left(\frac{2}{10}\right)^2 \times 24300 \; cm^3$

Let the radius of sphere be r

$\frac{4}{3}\pi r^3 = \pi \left(\frac{2}{10}\right)^2 \times 24300 \; cm^3$

$r^3 = 729$

r = 9 cm

Diameter of sphere = 2(9) = 18 cm

4. If the cost price is 80% of the selling price, find the profit in percentage.
(A)   20%
(B)   25%
(C)   16%
(D)   22.5%
Answer: B

Explanation:

Given, cost price is 80% of selling price
C.P = 0.8 S.P

Profit = $\underline{S.P - C.P}$ × 100
            C.P
      = $\underline{S.P - 0.8S.P}$ × 100
           0.8S.P
      = $\underline{0.2}$ × 100
         0.8

      = 25%

5. In a bag there are 15 red balls and 10 green balls. Three balls are selected at random. What is the probability of selecting 2 red balls and 1 green ball?
(A) $\underline{21}$
46
(B) $\underline{25}$
117
   (C) $\underline{3}$
        25
   (D) $\underline{1}$
        50

Answer: A

Explanation:
Number of ways of selecting 2 red balls and 1 green ball = 15C2. 10C1

Number of ways of selecting 3 balls = 25C3

Probability of selecting 2 red balls and 1 green ball = $\frac{15C2.10C1}{25C3} = \frac{21}{46}$

6. With an average speed of 40 km/hr, a train reaches its destination in time. If it goes with an average speed of 30 km/hr, it is late by 36 minutes. What is the total distance travelled by train?

(A)   72 km
(B)   78 km
(C)   60 km
(D)   40 km

Answer: A

Explanation:

Let us consider with average speed of 40 km/hr, train reached its destination in time t hrs

with average speed of 30 km/hr, it takes t + $\frac{36}{60}$ hrs

Distance will be same in both the cases

40t = 30t + 18

10t = 18

t = $\frac{18}{10}$

Distance = 40t = 40× $\frac{18}{10}$ = 72 km

7. A man borrows Rs 4000 at 15% compound interest. At the end of each year he pays back Rs 1500. Find how much amount is required to pay at the end of third year to clear all his dues.

●   Rs.775.75
●   Rs.973.85
●   Rs.1500
●   Rs.874.75

Answer: D

Explanation:

Time value of money Rs 4,000 at the end of 3 years = 4,000 $(1 + \frac{15}{100})^3$ = Rs 6083.5

Value of first installment at the end of 3 years = 1500 $(1 + \frac{15}{100})^2$ = Rs 1983.75

Value of second installment at the end of 3 years = 1500 $(1 + \frac{15}{100})$ = Rs 1725 Value of third installment = 1500

Let us assume he has to pay Rs. x to clear all his dues

1983.75 + 1725 + 1500 + x = 6083.5

x = Rs 874.75

8. The following pie chart embodies the details about the per cent production by seven different companies A-G with the total production for all companies at 1500 units.

Percentage(%) of Total Production

❖ Companies A & G are producing more than 500 units
❖ Companies B & F are producing less than 250 units
❖ Companies C & E account for 705 units
❖ Companies D & G are producing less than 200 units
❖ Companies E, F & G account for 545 units

Choose the correct answer from the options given below:

● Only (A) & (B) are true
● Only (B) & (C) are true
● Only (D) & (E) are true
● Only (A) & (E) are true

Answer: B

Explanation:

Total production = 1500 units

Company	% of total	Production
A	16	240
B	11	165
C	21	315
D	9	135
E	26	390
F	5	75
G	12	180

A and G production = 240 + 180 = 420 (not greater than 500)

B and F production = 165 + 75 = 240 (is less than 250)

C and E production = 315 + 390 = 705

D and G production = 135 +180 = 315 (not less than 200)

E, F and G production = 390 + 75 + 180 = 645 (not equal to 545)

9. In a local election between two candidates, one candidate got 55% of the total valid votes and was declared as winner. 15% of the votes were invalid. If the total number of votes polled were 15200, find the valid votes of the loser.

- 6840
- 5800
- 5814
- 6216

Answer: C

Explanation:

Total number of votes = 15200

15% of total votes are invalid, this implies 85% are valid.

55% of valid votes are secured by winner, this implies 45% of valid votes are secured by loser

Voted secured by loser = $\frac{45}{100} \times \frac{85}{100} \times 15200 = 5814$

Answer is option C.

10. If x is a positive fraction and y is a negative fraction then which of the following statements are true

(A) $\frac{1}{x} + \frac{1}{y}$ **is positive**

(B) $\frac{1}{x} - \frac{1}{y}$ **is positive**

(C) $\frac{x - \frac{1}{y}}{xy}$ **is negative**

xy **is positive**

11
   $x^2 - y^2$ **is positive**

Choose the correct answer from the options given below:

It is given that x is positive and

Only (A) & (B) are true

Only (B) & (C) are true

Only (D) & (E) are true

Only (A) & (E) are true

Answer: B

Explanation:

1

1 is negative, this implies that x is positive and y is
negative.

A 1   +1
) x y is positive, we know x is positive, and y is negative, but we cannot conclude which value is greater.
        Therefore, this may or
may not be
true.
   1   1
B) $x - y$ is positive; we know that x is positive and y is negative. So this statement is definitely true.
C $x - y$ 1   1
) xy = -($x - y$)
   1   1 $x - y$
As $x - y$ is positive, xy is negative and statement is true.

1
   xy is negative as x is positive and y is negative. Therefore, the statement is false.

   $^{1}2 - ^{12}$ is positive only when $y^2 > x^2$, but we cannot conclude which value is greater. Therefore, this may or may not be
   true.
x^y

Only (B) and (C) are true.

11. The average age of three friends is 20 years and their ages are in the proportion 2:3:5. What is the age of the oldest friend?

- 12 years
- 18 years
- 30 years
- 40 years

Answer: C

Explanation:

Given average age of three friends is 20 years

Sum of their ages = 3 × 20 = 60 years

Given, their ages are in ratio 2:3:5. Let their ages be 2x, 3x and 5x

2x + 3x + 5x = 60

10x = 60

x = 6

Their ages are 12 years, 18 years and 30 years

Age of oldest friend = 30 years

12. Match List I with List II. The following table embodies the details about the enrollment of students in five different activities namely Swimming, Singing, Drawing, Dancing and Handicraft in a School during the session 2020-21. A total number of 3000 students including 1750 girls have been enrolled in various activities in the school. Based on the data in the table, match the following :

Activity-wise Enrollment of Students

Activity-wise Enrollment of Students		
Activity	Percentage (%) of students enrolled (Out of 3000)	Percentage (%) of Girls enrolled (Out of 1750)
Swimming	16%	14%
Singing	21%	28%
Drawing	14%	16%
Dancing	24%	20%
Handicraft	25%	22%

List I	List II
(A) Boys enrolled in Singing and Handicraft taken together	(I) 735
(B) Girls enrolled in Swimming and Drawing taken together	(II) 525
(C) Girls enrolled in Singing and Drawing taken together	(III) 505
(D) Girls enrolled in Dancing and Handicraft taken together	(IV) 770

Choose the correct answer from the options given below

(A)-(II), (B)-(III), (C)-(IV), (D)-(I)

(A)-(I), (B)-(IV), (C)-(III), (D)-(II)

(A)-(IV), (B)-(III), (C)-(II), (D)-(I)

(A)-(III), (B)-(II), (C)-(IV), (D)-(I)

Answer: D

Explanation:

Total number of students is given and percentage of students enrolled in different activity is given. Calculating number of students participating in each activity, we get

Activity	Total Students	Girls	Boys
Swimming	480	245	235
Singing	630	490	140
Drawing	420	280	140
Dancing	720	350	370
Handicraft	750	385	365

Boys enrolled in singing and handicraft = 140 + 365 = 505 (III)

Girls enrolled in swimming and drawing = 245 + 280 = 525 (II)

Girls enrolled in singing and drawing = 490 + 280 = 770 (IV)

Girls enrolled in dancing and handicraft = 350 + 385 = 735

13. If a 30 meter ladder is placed against a wall such that it just reaches the top of the wall, if the horizontal distance between the wall and the base of the ladder is 1/3rd of the length of the ladder, what is the height of the wall?
25 meter

$20\sqrt{2}$ meter

$20\sqrt{3}$ meter

20 meter

Answer: B

Explanation:

AC is ladder, C is base of ladder, AB is wall

Given AC = 30 m and BC = $\frac{1}{3}$ AC = $\frac{1}{3}$ (30) = 10 m

Applying pythagoras theorem,

$AB^2 + BC^2 = AC^2$

$AB^2 = 30^2 - 10^2 = 800$

$AB = 20\sqrt{2}$

Instructions [14 - 16]

Consider the following table that shows the percentage (%) distribution of the workforce of India and ratio of male to female workforce of India in different employment sectors during a given year. Total workforce in all the sectors put together is 60 lakhs. Based on the data contained in the table, answer the question :

Sector-wise Distribution of Workforce of India

Sector-wise Distribution of Workforce of India		
	Workforce of India	
Employment Sector	**Percentage (%) Distribution**	**Ratio of Male to Female (M : F)**
Service (SE)	15%	3:02
Sales (SA)	12%	5:03
Construction and Maintenance(CM)	9%	5:04
Professional (PR)	18%	5:07
Management (MA)	21%	3:04
Production and Transport (PT)	19%	5:03
Others (OT)	6%	3:05

14. The number of male workforce in SA and MA sectors put together is approximately what percent of the total number of workforce in PT sector?

- 82%
- 87%
- 89%
- 85%

Answer: B

Explanation:

Total workforce = 60 lakhs

Employment sector	% distribution	Workforce (000's)	Ratio Male:Female	Male WF (000's)	Female WF (000's)
SE	15	900	3:2	540	360
SA	12	720	5:3	450	270
CM	9	540	5:4	300	240
PR	18	1080	5:7	450	630
MA	21	1260	3:4	540	720
PT	19	1140	5:3	712.5	427.5
OT	6	360	3:5	135	225

Male workforce in SA and MA sectors = 450 + 540 = 990

Total workforce is PT sector = 1140

990
% required = 1140 × 100 = 86.8% ≈ 87%

15. **The number of female workforce in SE and PR sectors combined is what percent of the number of male workforce in the CM sector?**

- 330%
- 318%
- 320%
- 80%

Answer: A

Explanation:

Total workforce = 60 lakhs

Employment sector	% distribution	Workforce (000's)	Ratio Male:Female	Male WF (000's)	Female WF (000's)
SE	15	900	3:2	540	360
SA	12	720	5:3	450	270
CM	9	540	5:4	300	240
PR	18	1080	5:7	450	630
MA	21	1260	3:4	540	720
PT	19	1140	5:3	712.5	427.5
OT	6	360	3:5	135	225

Female workforce in SE and PR = 360 + 630 = 990

Male workforce in CM = 300

990
% required = 300 × 100 = 330%

16. **The difference in the number of female workforce in SA and MA sectors combined and the number of female workforce in PT sector is :**

- 5.1 lakhs
- 7.5 lakhs
- 5.6 lakhs
- 13.2 lakhs

Answer: C

Explanation:

Total workforce = 60 lakhs

Employment sector	% distribution	Workforce (000's)	Ratio Male:Female	Male WF (000's)	Female WF (000's)
SE	15	900	3:2	540	360
SA	12	720	5:3	450	270
CM	9	540	5:4	300	240
PR	18	1080	5:7	450	630
MA	21	1260	3:4	540	720
PT	19	1140	5:3	712.5	427.5
OT	6	360	3:5	135	225

Female workforce in SA and MA = 2.7 + 7.2 = 9.9 lakhs

Female workforce in PT = 4.275 lakhs

Difference = 9.9 - 4.275 = 5.625 ≈ 5.6 lakhs

17. **One pipe can fill a tank three times as fast as another pipe. If the two pipes together can fill the tank in 36 minutes, find how much time the slower pipe will take to fill the tank alone?**

- 81 minutes
- 108 minutes
- 192 minutes
- 144 minutes

Answer: D

Explanation:

Let slower pipe fill the tank at the rate x units/ minute.

Faster pipe will fill tank at the rate of 3x units/ minute

Number of units filled by both the pipes in a minute = 4x

Total time taken to fill tank = 36 minutes

capacity of tank = 36× 4x = 144x

Time taken by slower pipe to fill the tank $= x = \dfrac{144x}{x} = 144$ minutes

18. A bag contains 6 red balls, 11 yellow balls and 5 pink balls. If two balls are drawn at random from the bag, one after another, what is the probability that the first ball drawn was red and the second ball drawn was yellow in colour?

A $\quad \dfrac{3}{14}$

B $\quad \dfrac{5}{7}$

$\dfrac{1}{7}$

D $\quad \dfrac{1}{14}$

Answer: C

Explanation:

There are 6 red balls, 11 yellow balls and 5 pink balls

Total number of balls = 6 + 11 + 5 = 22

Probability of selecting red ball = $\dfrac{6}{22}$

After selecting one ball, there are 21 balls left

Probability of selecting yellow ball = $\dfrac{11}{21}$

Therefore, probability = $\dfrac{6}{22} \times \dfrac{11}{21} = \dfrac{1}{7}$

19. Given below are two statements:

Statement I : The set of numbers (7,8,9,a,b,10,8,7) has an arithmetic mean of 9 and mode(most frequently occurring number) as 8, Then a x b = 120.

Statement II : Let a and b be two positive integers such that a + b + a x b = 84, then a + b =20.

In the light of the above statements, choose the most appropriate answer from the options given below

- Both Statement I and Statement II are correct
- Both Statement I and Statement II are incorrect
- Statement I is correct but Statement II is incorrect
- Statement I is incorrect but Statement II is correct

Answer: A

Explanation:

Statement I:

Given arithmetic mean of (7,8,9,a,b,10,8,7) is 9 and mode is 8

7+8+9+a+b+10+8+7 = 9 × 8

49+a+b = 72

a+b = 23

It is mentioned that mode is 8, 8 occurred twice and 7 also occurred twice. Therefore, a or b should be 8

If a = 8, b = 15

If b = 8, a = 15

ab = 120

Statement I is true

Statement II:

a + b + ab = 84

1 + a + b + ab = 85

(1+a)(1+b) = 85

85 = 1 × 85 or 5 × 17

It cannot be 1× 85, as it is mentioned both a and b are positive integers

   If 1+a = 5, 1+b = 17

      a =4 and b = 16

   If 1+a = 17, 1+b = 5

      a = 16 and b = 4

In both cases, a+b = 20

Statement II is true

20. If (x + y) = 3, xy = 2, then what is the value of $x^3 + y^3$:

- ●   6
- ●   7
- ●   8
- ●   9

Answer: D

Explanation:

Given,

x + y = 3 and xy = 2

$x^3 + y^3 = (x + y)(x^2 + y^2 - xy)$

x + y = 3

squaring on both sides

$(x + y)^2 = 9$
$x^2 + y^2 + 2xy = 9$

$x^2 + y^2 = 9\text{-}4 = 5$

$x^3 + y^3 = 3(5\text{-}2) = 9$

CMAT 2022 Language Comprehension

1. **Choose the option which is opposite in meaning to the following word: Intrepid**

- Amiable
- Fiendish
- Tranquil
- Cowardly

Answer: D

Explanation:

intrepid - fearless

Cowardly means lack of courage. Therefore, option D is the most appropriate one.

2. Please fill the blanks with the help of correct word from pairs given below and complete the sentence: (elicit / illicit; council / counsel; hoard / horde; dependents / defendants)

He was charged with _____ sale of narcotics.

The Chief Minister was given a _____ to keep off the epidemic.

A _____ of terrorists have attacked the army base.

The _____ of the university employees are granted full free-fellowship.

(a) Elicit; (b) Council; (c) Hoard; (d) Dependents

(a) Illicit; (b) Council; (c) Horde; (d) Defendants

(a) Elicit; (b) Counsel; (c) Hoard; (d) Defendants

(a) Illicit; (b) Counsel; (c) Horde; (d) Dependents

Answer: D

Explanation:

a. "elicit" means "to evoke a reaction" while "illicit" means "illegal/forbidden by law". For the given sentence, "illicit" is the right choice.

b. "council" means "a group of people selected for a certain administrative job", whereas a "counsel" means "to give advice". Concerning the given sentence, "counsel" is the correct choice.

c. "hoard" means "to store", and "horde" means "a large group of people". Thus, "A horde of terrorists" will be the correct phrasing.

d. "The dependents of the university employees" is the right choice for the given sentence.

3. Pick the appropriate meaning of the underlined idiom in the following sentence: "The lease of our premises has run out."

- Enfeebled
- Expired
- Increased
- Prolonged

Answer: B

Explanation:

A. "Enfeebled" means to become weak.

B. "Expired" means to end.

C. "Increased" means to become greater in size/value.

D. "Prolonged" means to be increased.

4. In the given sentence, the phrase "run out" implies to come to an end. Out of the options, B is the correct answer.

The word "veteran" means:

- A person who has fought elections
- A person who treats animals
- A person who has long experience
- A person who lives on vegetables

Answer: C

Explanation:

veteran - a person who has a lot of experience in a particular activity or job.

5. Pick the appropriate meaning of the underlined phrase in the following sentence: "In market economy capital gets <u>lion's share</u> in production."

- adequate part
- lesser part
- larger part
- None of these

Answer: C

Explanation:

The phrase "the lion's share" means "a bigger portion". Out of the options, C gives the correct answer.

6. Pick the correct sentence:

- He made a fool of certainly himself.
- Certainly he made a fool of himself.
- Certainly a fool he made of himself.
- He made a certainly fool of himself.

Answer: B

Explanation:

The grammatically correct sentence among the options is B: " Certainly he made a fool of himself.

"Certainly" is used to emphasize something.

7. Pick the correct option:

It is nothing else than pride.

It is nothing else but pride.

- (I) is correct but (II) is incorrect
- (I) is incorrect but (II) is correct
- Both (I) & (II) are correct
- Both (I) & (II) are incorrect

Answer: B

Explanation:

Out of the two given sentences, (ii) is the correct one because "else" is used with "but".

8. Find the synonym of "confess":

- Agree
- Admit
- Understand
- Decide

Answer: B

Explanation:

confess - admit, acknowledge

9. Find the appropriate meaning of the underlined phrase in the following sentence: "You can be happy only when following the golden mean."

- opulent way of life
- middle path
- golden path
- meanness

Answer: B

Explanation:

The phrase "to follow the golden mean" means to do things in moderation and avoid the extremes. In other words, it means to follow a middle path. Hence, the answer is option B.

10. Read the following passage and answer the question that follow:

Urbanization - the demographic shift from country to city - began with industrialization, and it has not let up. In 1900, fewer than 15 percent of the world's population lived in cities. Fifty years later, that number had doubled to 30 percent of the world's population of 750 million. By 2000, 2.9 billion people, or 47 percent of the world's population, were living in urban areas, with the greatest growth occurring in Africa, Asia, and Latin America. In 2007, for the first time in history, the urban population exceeded 50 percent, and by 2050, according to World Health Organization (WHO), seven out of ten people will call urban areas home….

Contrary to common belief, fewer than 10 percent of urban dwellers are residents of megacities with populations of over ten million. A megacity consists of the city proper and its adjoining suburban centers. An example is the New York-Newark aggregation, which in 1950 was the world's only megacity; by 2011, it was the sixth largest of 21 megacities. The population of Greater Tokyo, the world's largest urban area and home to 36.7 million residents, is forecast to exceed 37 million by 2020.Megaciites Mumbai, Delhi, Dhaka, and Lagos, which do not yet appear on the Top Ten list, are steadily moving up the ladder. About half of the world's urban dwellers live in cities of under half a million people, and these cities continue to outpace megacities in growth.

While the benefits of developed infrastructure, public transportation system, employment opportunities, better health care, and education, plus a wide range of services, make cities the place to live, work, and enjoy, they are plagued with enormous problems. As engines of growth, cities have also become engines of pollution, traffic congestion, waste production, and environmental destruction….

In the 1960s, the concept of urban ecology emerged from the growing awareness of cities' impact on the environment. In 1975, the nonprofit organization Urban Ecology was founded in Berkeley, California, with the purpose of rebuilding cities in balance with nature. The 1992 Earth Summit in Rio de Janeiro established Agenda 21, a plan for the sustainable development of cities, and in 2002, 1,200 representatives (including 200 slum dwellers) from 80 countries participated in the first World Urban Forum, making urban ecology and sustainable eco-cities based on environment, economy, education, equity more than just a nice idea.

a)   Match each of the following meanings with the corresponding underlined words/phrases in the numbered items below:

●   Reaching a higher position
●   Seriously suffering from
●   The absolute best
●   Something not very practical

A. "Megacities Mumbai, Delhi, Dhaka, and Lagos, which do not yet appear on the Top Ten list, are steadily <u>moving up</u> the ladder."

B. "... the benefits of developed infrastructure, public transportation system, employment opportunities, better health care, and education, plus a wide range of services, make cities the place to live, work, and enjoy...." C. "... they are <u>plagued</u> with enormous problems."

D. "... making urban ecology and sustainable eco cities based on environment, economy, education, equity more than <u>just a nice idea.</u>"

A-(i); B-(ii); C-(iii); D-(iv)

A-(iv); B-(iii); C-(ii); D-(i)

A-(i); B-(iii); C-(ii); D-(iv)

A-(iii); B-(ii); C-(iv); D-(i)

Answer: C

Explanation:

Reaching a higher position: this means to get ahead or move up in standing. Thus, it corresponds to "moving up the ladder" in A.

Seriously suffering from: This is the definition of the word 'plagued' mentioned in C.

Something not very practical: "just a nice idea" mentioned in D refers to something that is good but not

practical.

b) Megacities are classified according to _____.

●   population
●   territorial area
●   their ecological footprint
●   their GDP

Answer: A

Explanation:

In the second paragraph, the author mentions, "*Contrary to common belief, fewer than 10 percent of urban dwellers are residents of megacities with populations of over ten million.*" After this, he/she goes on to list some of the megacities and their populations.

Hence, we can infer that megacities are classified on the basis of their population.

c) Indicate which of the two statements in the following pairs contains a main idea (M) and which contains supporting details (SD)?

(I) Tokyo is the world's largest megacity.

(II) Megacities are growing, but not as rapidly as smaller cities.

- I-M&II-SD
- I-SD&II-M
- I & II both M
- I & II both SD

Answer: B

Explanation:

In the passage, the author talks about megacities, growth in smaller cities, pollution and urban ecology. He does not focus on any one city and hence, statement (2) will be the main idea of the passage.

Statement (1) just talks about Tokyo, which is just one of the examples mentioned by the author. Thus, it will be part of the side details.

d) What does the phrasal verb "let up" imply in the first sentence:

- to come to an end
- to be less successful
- not to be working
- to be less strong

Answer: D

Explanation:

"Urbanization - the demographic shift from country to city - began with industrialization, and it has not let up."

The above line means that the urbanization process began with industrialization and hasn't lost its intensity yet. Thus, the phrase "let up" means to lose intensity or "become less strong".

e) Select the pair which has the same relationship as the pair

below: Whale: Pod

- Wolf: Pack
- Plant: Sprout
- Hand: Fingers
- Car: Garage

Answer: A

Explanation:

A group of whales is known as a pod. Hence, the second term of the relationship gives the name of the group of the first term.

A group of wolves is called a pack. Hence, the answer is option A.

11. Identify the correct direct speech form of the following sentence: My teacher told me that I am not working hard.

- My teacher told to me, "You are not working hard."
- My teacher said, "You are not working hard."
- My teacher said to him, "I am not working hard."
- My teacher said to me, "You are not working hard."

Answer: D

Explanation:

Option A is incorrect as it cannot be told to me. It should be either told me or said to me.

Options B and C don't give the same meaning as the given sentence. In option B, it doesn't refer you to anyone in particular. Therefore, the meaning doesn't remain the same.

Option D is the correct direct speech form.

12. Choose the correct alternative to replace the italicized phrase in the following sentence. In case no improvement is needed, option '4' is the answer. I cannot force her to marrying.

- to marry
- in marrying
- for marry
- No improvement needed

Answer: A

Explanation:

In the given sentence, the object is of the form "to + infinitive". The infinitive is always the first form of a verb. Hence, correct alternative is "to marry".

13. Choose the correctly spelt word.

- Klaptomania
- Klepptomania
- Kleptemania
- Kleptomania

Answer: D

14. Choose the correct verb form to fill in the blanks:

That there would be thunderstorms today was _____by the weather experts.

- foretold
- foreteld
- fortelling
- foretell

Answer: A

Explanation:

By reading the sentence, we can observe that it is in the past tense. The past form of "foretell" is "foretold".

15. Choose the correct preposition to complete the sentence: Roopam hasn't seen her father_____

last September.

- on
- in
- for
- since

Answer: D

Explanation:

A. "on" is used when a specific date or day is mentioned. For example, "on Saturday".

B. "in" is used for a specific period of time. For example, in a year, in a week, etc.

C. "for" is used when a specific time period is mentioned. For example, "for a year"

D. "since" is the correct answer as it is used with the starting of a particular period. For example, since last summer, since yesterday.

16. Choose the correct order of the sentence to create a meaning out of PQRS set: This work

❖ there emerges a picture spread over three generations
❖ which depicts the rapidity of change
❖ devotees form a considerable amount of attention to local detail,
❖ and from such a realistic perspective

Codes:
● PQRS
● RSPQ
● SQPR
● QSPR

Answer: B

Explanation:

P and Q form a pair in which Q describes the "picture spread" mentioned in P.

R and S also form a pair such that the "realistic perspective" mentioned in S refers to the "local detail" mentioned in R.

RS precedes PQ since the details mentioned in PQ about the picture spread are elaborating the realistic perspective and attention to detail mentioned in RS.

Hence, the correct order of sentences is RSPQ.

CMAT 2022 General Awareness

1. The term butterfly is associated with

● Kabaddi
● Boxing
● Swimming
● Wrestling

Answer: C

2. Change in Seasons occur due to

❖ Earth's rotation
❖ Earth's Revolution
❖ Inclination of Earth axis

Choose the correct options from the options given below:

● (A) and (B) only
● (B) and (C) only
● (A) and (C) only
● (A), (B) and (C)

Answer: B

3. **Which of the following is true regarding Vehicle Scrapping Policy recently announced by the Centre?**

●   State governments have been advised to offer road tax rebates up to 25% for personal vehicles and manufacturers to provide a 5% discount on purchase of a new vehicle against the scrapping certificate.
●   State governments have been advised to offer road tax rebates up to 50% for personal vehicles and manufacturers to provide a 10% discount on purchase of a new vehicle against the scrapping certificate.
●   State governments have been advised to offer road tax rebates up to 33% for personal vehicles and manufacturers to provide a 7% discount on purchase of a new vehicle against the scrapping certificate.
●   State governments have been advised to offer road tax rebates up to 40% for personal vehicles and manufacturers to provide a 3% discount on purchase of a new vehicle against the scrapping certificate.

Answer: A

4. **Article 356 of the Constitution of India provides for**

●   Reservation of the jobs for backward classes
●   Protection of religious monument
●   Imposition of President's rule in a State
●   Right to Education

Answer: C

5. **Prof. Amartya Sen was honoured with**

❖   **UNESCO PEACE Prize**
❖   **BHARAT RATNA**
❖   **NOBEL PRIZE**

Choose the correct options from the options given below:

●   (A) and (B) only
●   (B) and (C) only
●   (A) and (C) only
●   (A), (B) and (C)

Answer: B

6. **Given below are two statements:**

Statement I : Indian Constitution uses the word 'minority' to mean 'any sections of citizens' having a distinct language, script or culture.

Statement II : This may be a whole community living within a majority community.

In the light of the above statements, choose the correct answer from the options given below:

●   Both Statement I and Statement II are true
●   Both Statement I and Statement II are false
●   Statement I is true but Statement II is false
●   Statement I is false but Statement II is true

Answer: A

7. Who among the following was a French journalist and novelist known for his series of 20 novels collectively known as Les Rougon-Macquart?

- Jean Paul Sartre
- Albert Camus
- Jean Baudrillard
- Emile Zola

Answer: D

8. The total number of Judges of International Court of Justice is

- 10
- 12
- 15
- 18

Answer: C

9. Match List I with List II.

List I(Constitutional Provisions)	List II(Adopted from)
(A) Charter of Fundamental Rights	(i) Soviet Constitution
(B) The Idea of Residual Powers	(ii) Canadian Constitution
(C) The Planning Commission and Five year Plan	(iii) United States Constitution
(D) Enunciation of Directive Principles of State Policy	(iv) Irish Constitution

Choose the correct answer from the options given below:

- (A)-(i), (B)-(iv), (C)-(ii), (D)-(iii)
- (A)-(iv), (B)-(i), (C)-(ii), (D)-(iii)
- (A)-(ii), (B)-(i), (C)-(iv), (D)-(iii)
- (A)-(iii), (B)-(ii), (C)-(i), (D)-(iv)

Answer: D

10. Which form of Indian dance shows influence of Persian culture?

- Bhangra
- Kathak
- Rangma
- Chhau

Answer: B

11. Choose the correct chronological sequence of the following:-

- ❖ **Gandhi-Irwin Pact**
- ❖ **Nehru Report**
- ❖ **Non-Cooperation Movement**

❖   **Quit India Movement**

- (C), (D), (A), (B)
- (C), (B), (A), (D)
- (B), (C), (D), (A)
- (B), (C), (A), (D)

Answer: B

12. In the banking sector, what does GNPA refer to?

- Gross Non-performing Advances
- Gross National Performing Assets
- Gross National Productive Assets
- Gratuitous Non-performing Advances

Answer: A

13. Given below are two statements:

Statement I : Our lungs have two parts - the left and right lungs.

Statement II : structurally two parts of the lungs are different from each other.

In the light of the above statements, choose the most appropriate answer from the options given below

- Both Statement I and Statement II are correct
- Both Statement I and Statement II are incorrect
- Statement I is correct but Statement II is incorrect
- Statement I is incorrect but Statement II is correct

Answer: A

14. The first country to be labelled as 'Banana Republic' was

- Bermuda
- Honduras
- El Salvador
- Haiti

Answer: B

15. Match List I with List II

List I	List II
(A) P.V. Sindhu	(i) Shooting
(B) Lovlina Borgohain	(ii) Wrestler
(C) Ravi Kumar Dahiya	(iii) Badminton
(D) Gagan Narang	(iv) Boxing

Choose the correct answer from the options given below:

- (A)-(ii), (B)-(iv), (C)-(i), (D)-(iii)
- (A)-(iii), (B)-(iv), (C)-(ii), (D)-(i)
- (A)-(ii), (B)-(iii), (C)-(i), (D)-(iv)
- (A)-(ii), (B)-(iii), (C)-(iv), (D)-(i)

Answer: B

16. Given below are two statements:

Statement I : Food is cooked in a pressure cooker quickly because it retains heat for a longer period.

Statement II : Food is cooked in a pressure cooker quickly because the boiling point of water increases.

In the light of the above statements, choose the correct answer from the options given below

- Both Statement I and Statement II are true, Option ID :-2157,
- Both Statement I and Statement II are false, Option ID:- 2158,
- Statement I is true but Statement II is false, Option ID:- 2159,
- Statement I is false but Statement II is true, Option ID:- 2160,

Answer: D

17. **On what does the dollar-rupee exchange rate in India depend ?**

- Demand-supply equilibrium
- Monetary Policy of RBI
- Government control
- The stock market fluctuations

Answer: A

18. **Match List I with List II.**

List I	List II
(A) The Northernmost Point	(i) Siachen Glacier
(B) The Southernmost Point	(ii) Kibithu
(C) The Easternmost Point	(iii) Sir Creek
(D) The Westernmost Point	(iv) Indira Point

Choose the correct answer from the options given below:

- (A)-(i), (B)-(iv), (C)-(ii), (D)-(iii)
- (A)-(iv), (B)-(i), (C)-(ii), (D)-(iii)
- (A)-(ii), (B)-(i), (C)-(iv), (D)-(iii)
- (A)-(iii), (B)-(ii), (C)-(i), (D)-(iv)

Answer: A

19. **Who among the following rulers belongs to Slave Dynasty?**

- Shershah Suri
- Muhammed Ghori
- Shams-ud-din Iltutmish
- Humayun

Answer: C

20. Given below are two statements:

Statement I : Bodo is one of the scheduled languages of India.

Statement II : Nepali is one of the scheduled languages of India.

In the light of the above statements, choose the most appropriate answer from the options given below

- Both Statement I and Statement II are correct
- Both Statement I and Statement II are incorrect
- Statement I is correct but Statement II is incorrect
- Statement I is incorrect but Statement II is correct

Answer: A

CMAT 2022 Innovation and Entrepreneurship

1. 'Shishu', 'Kishore' and 'Tarun' are the three products created by _____ to indicate the stage of growth/development and funding needs of the beneficiary micro unit/entrepreneur and also provide a reference point for the next phase of graduation/growth.

- MUDRA Yojana
- Jan Dhan Yojana
- Ayushman Bharat Yojana
- None of the above

Answer: A

2. Match List I with List II.

List I	List II
(A) Raymond	(i) A gift for someone you love
(B) Weekender	(ii) The complete man
(C) Amul	(iii) I'm loving it
(D) McDonald	(iv) Wear your attitude

Choose the correct answer from the options given below:

- (A)-(i), (B)-(iv), (C)-(iii), (D)-(ii)
- (A)-(iii), (B)-(i), (C)-(iv), (D)-(ii)
- (A)-(ii), (B)-(i), (C)-(iv), (D)-(iii)
- (A)-(ii), (B)-(iv), (C)-(i), (D)-(iii)

Answer: D

3.   Please select the most appropriate reason for the government's increasing role in business globally

- Costs of production have continued to increase
- People's attitudes have changed
- Products have become very technical
- Competition in the marketplace has changed

Answer: D

4. **Having more than one customer segment:**

- Can never be beneficial as this makes an entrepreneur lose focus
- Can never be beneficial as it brings in undesired complexity
- Can be beneficial as it helps maintain consistent business throughout the year
- Can be beneficial as it helps reduce costs

Answer: C

5. **An entrepreneur can receive a lot of quality information about competitors from_____.**

- Company reports and published accounts
- Product information leaflets
- Websites
- All the above

Answer: D

6. **Sequoia capital is a/an:**

- Angel investor
- Venture capital firm
- Fintech Start-up
- None of the above

Answer: B

7. **Founders translate company ideas into business model hypotheses, test assumptions about customers' needs, and then create a _____ to try out their proposed solution on customers.**

- Beta version
- Brand
- Minimum viable product
- Service

Answer: C

8. Match List I with List II.

List I	List II
(A) OYO Rooms	(i) Vineeta Singh
(B) Sugar Cosmetics	(ii) Warren Buffet
(C) Berkshire Hathaway	(iii) Peeyush Bansal
(D) Lenskart	(iv) Ritesh Agarwal

Choose the correct answer from the options given below:

- (A)-(ii), (B)-(iii), (C)-(iv), (D)-(i)
- (A)-(iv), (B)-(ii), (C)-(i), (D)-(iii)
- (A)-(iv), (B)-(i), (C)-(ii), (D)-(iii)
- (A)-(i), (B)-(ii), (C)-(iii), (D)-(iv)

Answer: C

9. According to Schumpeter, the primary function of a new age entrepreneur is:

- Creativity
- Innovation
- Invention
- Skill

Answer: B

10. Shruti wants to start a small floral shop. As a part of her business plan, he prepared an "entertaining MS PowerPoint Presentation" to garner interest among potential investors and trigger discussion. This format of business plan is known as

- Business Talk
- Business Plan
- Pitch deck
- Presentation

Answer: C

11. ATAL Innovation Mission aims to create and promote culture of:

- Innovation & energy conservation
- Innovation & Entrepreneurship
- Entrepreneurship & energy conservation
- Strategy and Entrepreneurship

Answer: B

12. Which one of the following factors is not relevant for judging the adequacy of the market?

- Total Present Domestic Market
- Competitors and their market shares
- Export Market
- Labour Market

Answer: D

13. Document that projects the income, expenses, and profits of a business over a multi-year period

- Technical Plan
- Marketing Plan
- Financial Plan
- Management Plan

Answer: C

14. Match List I with List II.
