Read the following passage carefully and answer question based on passage.

There are two types of institutions which have in-house laundry and maintenance setups i.e. within their organisation. These are hotels and hospitals. Both have a large quantum of bed linen and other room furnishing requirements as also staff uniforms and accessories such as aprons, caps, head dresses and masks.

The hospital laundry takes care of hygiene, cleanliness and disinfection. However, a number of hospitals have started using disposables where there is a threat of infection, which are then destroyed by burning.

In the hospitality sector, i.e. for hotel and restaurants, aesthetics and final finish of the articles are most important. As compared to hospitals, the articles here may be of different fibre contents. Final finishing of laundered goods, i.e. starching, ironing pressing and correct and perfect folding, are emphasised. They also have to take care of guests' personal laundry when required. The smaller hotels may have link ups with commercial laundries from outside.

RRE was a nationwide communication campaign for generating awareness about HIV/AIDS. The aim of the campaign was to spread information regarding primary prevention services, develop an understanding of the disease, reduce stigma and discrimination against people with AIDS and enhance people's knowledge about the preventive measures, health habits and lifestyle.

A specially designed train traversed over 9000 km a year covering 180 districts/ halt stations, and held programmes and activities in 43,200 villages. It comprised of seven coaches, equipped with educational material, interactive touch screens and 3-D models, services in the context of HIV-TB co-infection, an LCD Projector and platform for folk performances, counselling cabins and two doctor's cabins for providing counselling and treatment.

RRE started its journey from Kanyakumari, followed the 'parikrama' style and halted at 180 stations and covered almost all the states of India. During the halt at each station, performing artists including orators and performers went to different villages to undertake information communication activities such as street plays, folk songs, stories and group counselling sessions.

The project was implemented by National AIDS Control Organisation (NACO), Nehru Yuva Sangathan (NYKS), UNICEF and UNAIDS in co-operation with Indian Railways.
