CASE STUDY – 1

Economic Survey for 2022-23 has been presented to the Parliament. According to the survey, “the Indian Economy, however, appears to have moved on after its encounter with the pandemic, staging a full recovery in FY 22 ahead of many nations and positioning itself to ascend to the pre-pandemic growth path in FY 23”. It is also stated that agencies worldwide continue to project India as the fastest growing major economy at 6.50-7.0 % in FY 23.

This could be possible with TEAM (Together Everyone Achieves More) efforts. The participants of this Team are the Central Government, State Governments, industry and the people of this country.

There has been a tectonic shift in policies of the government. The emphasis of the present government has been to stimulate entrepreneurship so that more and more people become job givers rather than job seekers. This has also resulted in providing impetus and encouragement to the youth of the nation to pursue their entrepreneurial dreams.

One such case of entrepreneurial dreams is of Manu and Tanu, two friends who always aspired to have their own business ventures when they complete their education. They both completed MBA from top business schools in India and were working in large corporates with big pay packages.

Whilst they always wanted to pursue business ideas, nothing came their way which enticed them to start their entrepreneurial journey. Meanwhile, Manu who was interested in economic policy and defence related matters came across a write up which described the shift in the policy by the present government in defence sector. The new policy emphasised on giving priority to the indigenous market players and reserving more than 500 items for domestic manufacturing, was a lucrative business chance he thought.

Though Manu and Tanu were in contact, it had been couple of years since they met. Manu met Tanu and discussed this idea of business potential in defence sector and how they could start something of their own. They believed there is a lot of scope in domestic as well as in global market, if they could manufacture the ancillary items used in defence equipment.

Having realised their true calling, both resigned from their high paying jobs to start their own venture. In 2020 they incorporated a company called M&A Private Ltd, with both of them being the shareholders and directors of the Company. Gradually, when the business started growing they bought in Shyam as a shareholder and director. Presently, Shyam hold 12% of the equity share capital while Manu and Tanu hold 44% each. The Company is able to fund its operations internally, without seeking any outside funds.

As both Tanu and Manu had business acumen and strategic vision, they wanted to rely on a professional who can guide them on accounting, law and compliance matters and give expert advice at various points in time as required by the business. They appointed their long-time friend and a tenured financial professional, Ajim as the Chief Financial Officer (CFO) of the Company.

During the one of the board meetings, while briefing about the audit status, the CFO informed the directors that the financial statements for the current year would be prepared as per the Indian Accounting Standards (Ind AS). In the audit kick-off meeting held in March 2023, the following points were discussed by the CFO, while Tanu and Manu, added their insights:

CASE STUDY – 2

Sahana is MBA Graduate from IIM Bangalore. Sahana and her father incorporated a company 'Sah Fashions Ltd' to set up a boutique and chain of readymade garment stores to support their family business of cotton and yarn mills. She was able to manage the accounting and taxation part of her business by herself in the initial stages. Considering the business expansion, she was evaluating to hire a professional consultant who would support in all business matters including taxation and accounting. She reached out to her old friend, Madan, a Practising Chartered Accountant to seek his help on accounting and compliance matters relating to the Company.

Madan set up his own Proprietorship firm and has been in practice specialising, in Audit and Taxation since 10 years. When Sahana contacted Madan for professional help, he was more than glad to support her. They met up at a coffee shop to discuss the details of the engagement. During the conversation, Madan tells her that times have changed and so have the ways of presenting accounts of any business as per the financial reporting framework. He explains how the preparation of the Financial Statements is now regularized in such a way where all such Financial Statements shall have a consistency/ uniformity across the industry (with few exceptions e.g. specially regulated financial statements). In addition, the users of these Financial Statements would also have an assurance of complying with basic framework. He also gives her an overview of latest changes in the income tax and GST which could have an impact on her business. After a detailed conversation on accounting and taxation aspects, he asks Sahana to brief him about her business and the issues she is facing. The meeting gets more formal as Sahana calls Murari, the Accountant working in her Company to the meeting.

Sahana explains the following open issues to Madan:

Issue 1

Sahana opines that Murari is not computing the depreciation on the Plant and Machinery appropriately:

	Particulars	₹ Lakhs
(1)	Opening WDV of Plant & Machinery (P &M)	30
(2)	New P & M purchased and put to use on 08 June 2022*	20
(3)	New P & M acquired and put to use on 15 December 2022*	8
(4)	Computer acquired and installed on 2 January 2023	3

* Qualified for additional depreciation @ 20% p.a.

As per Murari's workings, total maximum depreciation on machinery @ 15% comes to ₹8.7 Lakhs and on computer @ 40% comes to ₹ 1.2 Lakhs.

Issue 2

On 1st April 2021, Sah Fashions Ltd acquired 100% of Spun Ltd for ₹ 5 Lakhs, which was into cotton spinning business. The fair value of the net identifiable assets of Spun Ltd was ₹ 4.5 Lakhs and goodwill was ₹ 0.5 Lakhs. On 31st March 2023, the government changed its policy on textile sector having adverse impact on business of companies like Spun Ltd.

Internal discussion on government policies indicate that revenue of Spun Ltd is estimated to fall by 20% in coming three to five years. The adverse effect on market place and strict regulatory conditions indicates impairment. As a result, Spun Ltd has to estimate the recoverable amount of goodwill and net assets on 31st March 2023.

Sah Fashions Ltd uses straight line depreciation. The useful life of Spun Ltd assets is estimated to be 15 years with no residual value. Further, no independent cash inflows can be identified to any individual assets. So the entire operation of Spun Ltd is to be treated as a cash generating unit (CGU). Due to the regulatory entangle it is not possible to determine the selling price of Spun Ltd as a CGU. Its value in use is estimated by the management at ₹ 3.02 Lakhs.

Issue 3

Company has received invoices for inputs and input services from various suppliers during the month of April 2023. Invoices involve total Input Tax Credit (ITC) (IGST, CGST and SGST) of ₹ 5 Lakh. Suppliers have furnished their GST return for the concerned month and in their GSTR-1 invoices involving ITC of ₹ 3 Lakh only were uploaded. Murari is of the view that as the Company is having all the physical copies of the invoices not uploaded in GST return, there would be no problem in availing GST ITC. In one instance, Company received the material from supplier but not invoice. GST department issued notice to the concerned supplier for evasion of tax who on receiving the tax has deposited the same under section 74. The amount of ITC involved was ₹ 0.15 Lakhs for which the invoice was issued by the supplier afterwards and has now been included in ₹ 5 lakh and is now reflecting in GSTR 2A. Also in one case, the material was imported on which eligible ITC was ₹ 0.70 Lakhs (included in ₹ 5 lakhs) but the same was not reflecting in GSTR 2A.

Issue 4

Company at the Annual General Meeting (AGM) held on 30th September 2019 appointed Gana as a Non-Executive Director on the board of the Company for a period of three years. On 2nd October 2020, Gana met with an accident and died on the spot. The Board of Directors of the Company on 16th October 2020 appointed Hero to fill the casual vacancy so created. Appointment of Hero was made for a term of three years by the Board unconditionally. The Annual General Meeting (AGM) was held on 29th September 2021.

Issue 5

renovated with a total cost of ₹ 60 Lakhs approximately. Madan was quite astonished when he got to know that the renovation cost is more than the purchase price of the flat. Sahana informed Madan that, she is purchasing the flat due to her father's emotional attachment with the locality and evaluating to finalise the contractor for the renovation work to make the interiors as per her liking. Apparently, Murari informed her that there would not be any compliance under the Income-tax Act, 1961 towards flat purchased and proposed renovation.
