CASE STUDY – 1

Fashion India Limited (FIL), based in Chandigarh is one of the globally leading textile manufacturing company in India since last 40 years and is driven by its differentiation strategy based on innovation, branding & sustainability. As a leading textile company in India, FIL's key focus is on the domestic market with sustainable textiles and on building a strong B2C presence while continuing to grow its export business. The Company's manufacturing facilities, located in India, are equipped to deliver high-quality products, as per international standards. The strong, ethical and compliant corporate governance mechanism is one of the core aspects of its policy structure. Management of the Company consists of well qualified and experienced professionals who are responsible for driving growth whilst ensuring compliance with the laws of land.

Due to competition in the market, the Company continuously reviews its product range and enhances its existing products by developing new models to meet the demands of its customers. FIL's research and development team developed a new product "Gladden" which has lifelong anti-microbial properties and odour prevention benefits and can keep the linens fresh for a longer time. This new product was approved by the management in July 2022 and was launched in December 2022. Gladden is now about to enter the maturity stage of its life cycle. Research by the marketing team indicates that demand of the product 'Gladden' in the domestic market is price sensitive. The likely market responses are as follows:

Selling price per unit (₹)	1,550	1,400	1,325	1,260	1,100
Sales demand per week (units)	6,000	8,500	10,500	11,750	12,500

The variable cost per unit for manufacturing 'Gladden' is ₹ 850 and the attributable fixed cost is ₹ 2,50,000 including all overheads and administrative expenses. Also the price charged by competitors is in the range of ₹ 1,250.

The Production department believes that, for producing "Gladden" existing machinery cannot be used and a specific type of machinery is required. The required machinery is being manufactured in India only by two companies namely RFD Ltd. (a company engaged in the manufacturing and exports of textile machinery) and SED Ltd. (a subsidiary of German company engaged in

manufacturing all types of machinery according to the requirements of customer). Upon evaluation, FIL concluded that as RFD Ltd takes a period of 2 to 3 months, they would approach RFD Ltd for buying the machinery. An agreement to purchase the machinery was entered on August 10, 2022 with a clause that FIL will have to settle the consideration of machinery purchased by issuing its equity shares. FIL agreed to the clause and order was confirmed. Machinery was supplied vide invoice dated October 25, 2022 and delivered on November 1, 2022. Agreed purchase consideration was ₹ 150 Lakhs and the fair value of the machinery supplied was estimated to be ₹ 160 Lakhs. As agreed, FIL issued 1,00,000 equity shares of face value ₹ 100 each to RFD Ltd.

One of the product, 'Slimmer' introduced in the year 2016, is at the end of its life cycle and Company's revenue from it is declining at a very fast pace. The Company's marketing team in Mumbai has been approached by M/s Tulip Exports Limited (TEL), a merchandise exporter, to buy 500,000 units of its product 'Slimmer' at the rate of ₹ 750 each. Historically, the Company did not venture into such type of business and whenever goods were exported, the same was done directly and not through any merchant exporter. One of the clauses of purchase, imposed by TEL is that, the product will be supplied by FIL at the concessional rate of GST (normal GST rate is 5%). This proposal was discussed and approved by the management, and the legal team was entrusted to ensure all the legal compliances pertaining to offer of TEL would be satisfactorily vetted. Specified goods were supplied vide invoice dated June 1, 2023 and received by TEL in its warehouse for further packing on June 5, 2023. Payment for goods was received as per the agreed terms on June 15, 2023. During the Statutory Audit, the statutory auditors sought evidence of goods exported to TEL (which were supplied at concessional rate). FIL replied to the auditor that, TEL neither supplied any export proof to them, nor they have demanded it.

M/s Cotton Garments Inc. (buyer) from (a US based company dealing in high end garments) was regularly getting customer queries about availability of "Gladden" in its retail stores. Senior Management of Cotton Garments Inc. contacted FIL for supply of 10,000 units. Price per unit agreed was ₹ 1500, making total contract value ₹ 1.5 crores as per contract dated December 1, 2022. As Cotton Garments Inc., was professionally managed, during the finalization of the purchase

agreement, a clause was inserted stating that if goods were not supplied within 3 months (March 1, 2023), FIL will pay interest at the rate of LIBOR + 100 basis points on the advance of ₹ 1 crore given on December 31, 2022. FIL could only supply 2,000 units of Gladden on time and could not supply remaining 8,000 units due to paucity of raw material. Management of FIL met the top leaders of Cotton Garments Inc., and explained the reasons for not being able to supply the remaining units and requested for waiver of interest. However, the management of Cotton Garments Inc., waived the interest with a condition that the remaining advance be returned to them immediately. FIL requested for a period till January 31, 2024, to which buyer agreed.

FIL earned good profits by launching the product "Gladden" and overall profitability was also good for the financial year 2022-2023. As a result, the management decided to pay interest of 3 years upfront on the debentures outstanding in books of accounts (with a balance maturity period of 3 years). Total interest payment amounted to ₹ 600 Lakhs. While preparing financial statements for the year ended March 31, 2023, the management treated 2/3rd interest as deferred revenue expenditure and recorded an expense of ₹ 200 Lakhs only for the financial year 2022-2023. The statement of Profit and Loss of the Company reflected a profit of ₹ 2,000 Lakhs before adjustment of interest of ₹ 200 Lakhs and charge of depreciation on new machinery purchased (depreciation rate – 15%). The final profit for tax purposes was yet to be computed by the Finance team of the Company.

As FIL is having surplus funds, one of its directors, Mr. S proposed an investment of ₹ 100 Lakhs in equity shares of reputed companies as part of Company's investment plan. For seeking approval for the said proposal, the board meeting of the Company was called, which was attended by five directors out of seven directors and the proposal was agreed by only three directors present.

CASE STUDY 2

Power Equipment Limited (PEL), headquartered in New Delhi, is engaged in production of various electrical, electronic, and mechanical equipments for various sectors, including transmission, transportation, oil & gas, and other allied industries. PEL is also engaged in the designing, engineering, manufacturing, construction, testing, commissioning and servicing of a wide range of products, systems and services for the core sectors of the economy. The Company has capacity to deliver 10,000 MW power equipment p.a., to address the growing demand for power generation equipment.

The Company has also started exporting its power and industry segment products and services since year 2019. Till now, Company mainly carried out its operations using internal funds, bank borrowing and unsecured loans. Newly appointed CFO of the Company, Mr. Guru in his first meeting with board of directors, proposed an IPO to gets the Company's shares listed on the stock exchanges in India, rather than increasing debt.

Management was convinced with the presentation given by Mr. Guru and was positive of the recommendations made by him. Consultants were appointed to assist the Company for preparation and necessary filings for IPO, as the management knew that it is a technical process and requires preparedness in terms of business model, listing down Company's strengths and weaknesses, reason for public issues, arranging for various permissions, disclosures to be

made in various documents etc. Consultants worked day and night to meet the deadline and were ready with draft prospectus and other documents. The documentation and draft prospectus included certification of current and past years' financial statements. Since Mr. Guru had joined recently as CFO of the Company, he was apprehensive about signing the documents containing financial information relating to earlier periods. When he expressed his apprehension, the management suggested that he could appoint a CA Firm, to review the documents he was supposed to sign-off, which would provide him additional comfort.

Accordingly, Mr. Guru took help of M/s RP & Associates, Chartered Accountants (an independent CA Firm) to review and validate the details disclosed in the financial information prepared for the purposes of IPO. Further, this review also included evaluation of non-compliances, if any, relating to direct taxes, indirect taxes, corporate laws and other financial regulations. After carrying out a detailed review, M/s RP & Associates, informed Mr. Guru about the following issues:

Issue 1

PEL regularly sent material to its job worker, ABC for technical work relating to high end electric wires. As and when required, the Company also gets certain machinery parts manufactured by job worker JHN for which dies & moulds are sent to JHN by PEL. As on March 31, 2023, the following data was made available by department handling GST for the Company:

S. No.	Particulars	Taxable value ₹ (Excl. GST)	Date of sending	Date of receipt-by Job worker	Status as on March 31, 2023
1	Material sent to ABC	2,50,000	March 25, 2022	March 28, 2022	Material lying With job worker
2	Material sent to ABC	1,50,000	March 28, 2022	April 2, 2022	--do--
3	Moulds & dies Supplied to JHN	5,00,000	March 1, 2022	March 12, 2022	Lying With job worker

Both moulds and material sent to job workers attract goods and service tax at the rate of 18%

QRT

Issue 2

PEL has adopted Ind AS for the financial year 2022-23 and also calculated minimum alternate tax. Mr. Guru asked for details on the basis of which MAT was determined. DGM (Accounts), Mr. Rajan, has provided the following information for the same:

Transition date: April 1, 2022

Convergence amount i.e. amount adjusted in other equity on convergence date ₹ 120 Lakhs

Adjustment to be made in book profit of the year of convergence and each of the following five years ₹ 20 Lakhs each.

Both Mr. Guru and CA firm are skeptical about the data provided by Mr. Rajan relating to MAT computation.

Issue 3

During the financial year 2022-23, the Company received the following amounts by issuing share capital and debentures:

Transaction	₹ Lakhs	Towards
A	11.50	Shares
B	9.50 + 1.50 as application money	Shares
C	25.00	Debentures
D	9.75	Shares (Other than the amount of ₹ 2.25 Lakhs received on account of renewal of Debentures)

In relation to above, the Company has not filed any statement with Income tax department, as the management believes that no obligation arises for filing any statement relating to transactions of shares and debentures issued.

Issue 4

Company has made the following payments to various directors :

Name of Director	₹ Lakhs	Nature of payment
Promoter directors (3)	15	Sitting fee for attending four board meetings (equal payment to all three directors)
Shobhit - Independent Director	3	Sitting fee for attending four board meetings
Ms. Seema – Woman Independent Director	3	Sitting fee for attending four board meetings

Company has received a notice from Registrar of Companies that sitting fee paid is not as per the provisions of the Companies Act, 2013.

Issue 5

The Company has entered into a contract with a government corporation to supply certain equipment for ₹ 500 lakhs. There has been a short supply in the market and cost of the equipment had also increased. If the Company makes the supply, it will incur a loss of ₹ 50 lakhs. The penalty for non-performing of the contract is expected to be ₹ 30 lakhs. The supply is required to be made by June 30, 2023.

Issue 6

PEL while preparing financial statements for the financial year 2021-22, made an error by not recording the clearing and forwarding expenses amounting to ₹ 20 crores, pertaining to exports made during the said year. While preparing financial statements for the financial year 2022-23, management has corrected the error by recording those expenses as current year expenses. Tax team pointed out that these expenses will be disallowed, while computing income of the Company as prior period expenses. Management agreed to it, stating this action of paying taxes by recording in current year will save them from any non-compliance from accounting perspective and also at the end of current year, the balances of clearing and forwarding agent will be reflected appropriately.

QRT

Issue 7

After a detailed discussion about the issues in the financial statements, Mr. Guru and Mr. RP, partner of M/s RP & Associates, had a casual chat about general matters. During the conversation Mr. RP mentioned to Mr. Guru that CA. Safe, partner of Safe CA LLP, a Chartered Accountant firm, which the Company was evaluating to appoint as internal auditors was well known to him through his common friend. He asked Mr. Guru, whether he was aware about the case filed against Mr. Safe, for forgery of his uncle's Will. Mr. Guru said he was aware about the case and that the Court had pronounced Mr. Safe guilty of forgery, however, it was his personal matter and had no impact on his professional work.

formed a company SAK Private Limited (SAK). SAK has been in the business of manufacturing and export of foot wear including premium sport shoes. It has become a known name in the last decade and is on a growth trajectory. Ms. Devika, Chartered Accountant, has been their CFO since the Company was founded and was a trusted advisor of the founder promoters. While finalizing accounts for the financial year 2022-23, she has doubts in respect of certain matters and approached you for your opinion.

- I. The Company has a property with a carrying value of ₹ 50 Lakhs which was purchased in June 2018. For purchasing this property, the Company had issued share capital which was subscribed by two other companies. The Company received a show cause notice from Initiating Officer (IO) under the Prohibition of Benami Property Transactions Act, 1988 for treating the said property as benami property.
- II. The Company has offered discount voucher on sale of its sport shoes for every sale of ₹ 1500 on sales made through its retail outlet. This discount voucher entitles the holder to a discount of 30% which can be used for any future purchase up to ₹ 1500 in the next 60 days. During the coming 60 days, the Company also intends to offer a general festival discount of 15% on all sales. This 15% discount cannot be used in addition to 30% discount voucher. The Company estimates that there is 80% likelihood that a customer will redeem the voucher and on an average a customer will purchase additional products worth ₹ 750.
- III. The Company purchased a building for ₹ 20 lakhs on April 1, 2020 and was using it as its corporate office. The life of the building was estimated to be 20 years. On March 31, 2022, the fair value of the building was ₹ 16.40 lakhs, and the remaining useful life of the building was also estimated to be 20 years. The Company has been following the cost model for accounting of its property, plant and equipment and follows straight line method for provision of depreciation. During the year, the Company shifted its corporate office to a bigger place and decided to let out the old property. The property has been given on rent to a multinational company on October 1, 2022.
