

BITSAT 4th Aug 2021 Memory-Based Questions – CollegeDekho Exclusive

- The ratio of number of octahedral and tetrahedral voids in FCC crystal
- What is the enthalpy of the formation of an ideal solution
- The ratio of number of octahedral and tetrahedral voids in FCC crystal
- Question-based on the graph of ohms law
- The relative velocity of lady headed towards the south with angle 45
- $1+3+5+7$ in ap the sum of 20 terms
- If $x^2+2x+1=0$ then find value $\alpha^{2020}+\beta^{2020}/\alpha+\beta$ where alpha and beta are roots of the quadratic equation
- Number of chiral carbons in heroin, meth crystals and hash
- The relative velocity of lady headed towards the south with angle 45
