#### **1. COURSE INFORMATION**

During the one-year duration of "Industrial Painter" trade, a candidate is trained on professional skills & knowledge and Employability skill related to job role. In addition to this a candidate is entrusted to undertake project work and extracurricular activities to build up confidence. The Broad components covered during the course are given below: -

The trainees will recognize and comply safe working practices with PPE and MSDS. They will also learn hazard and non-hazard items, uses of firefighting equipment. They will also go through the allied training on carpenter, welding, sheet metal work. Preparation of different types of wooden surface and painting on it. Knowledge of pipelines procedure and safety aspect. They will also practice graphics-stickers pasting, fixing, locking on wooden or metal surface.

The trainees will learn process of cleaning and painting on metal surface for preventive coating. Repair and maintenance of different pneumatics and paint gun. Practice on spray painting technique. Learn the aspect ratio mixing of paint, hardner and solvent. During the training they will also practice removal of dents and recover the damaged accidental area. They also practice on special effects for modern furniture. Operating system of powder coating technique and also quality test for various paints and painted films.

#### **2.1 GENERAL**

The Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers a range of vocational training courses catering to the need of different sectors of economy/ Labour market. The vocational training programmes are delivered under the aegis of Directorate General of Training (DGT). Craftsman Training Scheme (CTS) with variants and Apprenticeship Training Scheme (ATS) are two pioneer schemes of DGT for strengthening vocational training.

Industrial Painter trade under CTS is one of the popular courses delivered nationwide through a network of ITIs. The course is of one-year duration. It mainly consists of Domain area and Core area. The Domain area (Trade Theory & Practical) imparts professional skills and knowledge, while Core area (Employability Skills) imparts requisite core skill, knowledge and life skills. After passing out of the training programme, the trainee is awarded National Trade Certificate (NTC) by DGT which is recognized worldwide.

#### Trainee broadly needs to demonstrate that they are able to:

- Read and interpret technical parameters/ documentation, plan and organize work processes, identify necessary materials and tools.
- Perform tasks with due consideration to safety rules, accident prevention regulations and environmental protection stipulations.
- Apply professional knowledge & employability skills while performing the job and modification & maintenance work.
- Document the technical parameter related to the task undertaken.

#### **2.2 PROGRESSION PATHWAYS**

- Can join industry as Industrial Painter and will progress further as Senior Painter, Supervisor and can rise up to the level of Manager.
- Can become Entrepreneur in the related field.
- Can join the apprenticeship program in different types of industries leading to a National Apprenticeship Certificate (NAC).
- Can join Crafts Instructor Training Scheme (CITS) in the trade for becoming an instructor in ITIs.
- Can join Advanced Diploma (Vocational) courses under DGT as applicable.

#### **2.3 COURSE STRUCTURE**

Table below depicts the distribution of training hours across various course elements during a period of two-years: -

S No	S No. Course Element		Notional Training Hours	
5 110.	Course Element	1 <sup>st</sup> Year	2 <sup>nd</sup> Year	
1	Professional Skill (Trade Practical)	840	840	
2	Professional Knowledge (Trade Theory)	240	300	
3	3 Employability Skills		60	
	Total	1200	1200	

Every year 150 hours of mandatory OJT (On the Job Training) at nearby industry, wherever not available then group project is mandatory.

4 On the Job Training (OJT)/ Group Project	150	150
--	-----	-----

Trainees of one-year or two-year trade can also opt for optional courses of up to 240 hours in each year for 10th/ 12th class certificate along with ITI certification or add on short term courses.

#### 2.4 ASSESSMENT & CERTIFICATION

The trainee will be tested for his skill, knowledge and attitude during the period of course through formative assessment and at the end of the training programme through summative assessment as notified by the DGT from time to time.

a) The **Continuous Assessment** (Internal)during the period of training will be done by **Formative Assessment Method** by testing for assessment criteria listed against learning outcomes. The training institute has to maintain an individual trainee portfolio as detailed in assessment guideline. The marks of internal assessment will be as per the formative assessment template provided on <u>www.bharatskills.gov.in</u>

b) The final assessment will be in the form of summative assessment. The All India Trade Test for awarding NTC will be conducted by Controller of examinations, DGT as per the guidelines. The pattern and marking structure is being notified by DGT from time to time. **The learning outcome and assessment criteria will be the basis for setting question papers for final** 

**assessment.** The examiner during final examination will also check the individual trainee's profile as detailed in assessment guideline before giving marks for practical examination.

#### 2.4.1 PASS REGULATION

For the purposes of determining the overall result, weightage of 100% is applied for six months and one year duration courses and 50% weightage is applied to each examination for two years courses. The minimum pass percent for Trade Practical and Formative assessment is 60% & for all other subjects is 33%.

#### 2.4.2 ASSESSMENT GUIDELINE

Appropriate arrangements should be made to ensure that there will be no artificial barriers to assessment. The nature of special needs should be taken into account while undertaking the assessment. Due consideration should be given while assessing for teamwork, avoidance/reduction of scrap/wastage and disposal of scrap/waste as per procedure, behavioral attitude, sensitivity to the environment and regularity in training. The sensitivity towards OSHE and self-learning attitude are to be considered while assessing competency.

Assessment will be evidence based comprising some of the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work
- Computer based multiple choice question examination
- Practical Examination

Evidences and records of internal (Formative) assessments are to be preserved until forthcoming examination for audit and verification by examining body. The following marking pattern to be adopted for formative assessment:

Performance Level	Evidence
(a) Marks in the range of 60%-75% to be all	otted during assessment
For performance in this grade, the candidate should produce work which	<ul> <li>Demonstration of good skill in the use of</li> </ul>

demonstrates attainment of an acceptable standard of craftsmanship with occasional guidance, and due regard for safety procedures and practices	<ul> <li>hand tools, machine tools and workshop equipment.</li> <li>60-70% accuracy achieved while undertaking different work with those demanded by the component/job.</li> <li>A fairly good level of neatness and consistency in the finish.</li> <li>Occasional support in completing the project/job.</li> </ul>
(b) Marks in the range of 75%-90% to be al	
For this grade, a candidate should produce work which demonstrates attainment of a reasonable standard of craftsmanship, with little guidance, and regard for safety procedures and practices	<ul> <li>Good skill levels in the use of hand tools, machine tools and workshop equipment.</li> <li>70-80% accuracy achieved while undertaking different work with those demanded by the component/job.</li> <li>A good level of neatness and consistency in the finish.</li> <li>Little support in completing the project/job.</li> </ul>
(c) Marks in the range of more than 90% to	be allotted during assessment
For performance in this grade, the candidate, with minimal or no support in organization and execution and with due regard for safety procedures and practices, has produced work which demonstrates attainment of a high standard of craftsmanship.	<ul> <li>High skill levels in the use of hand tools, machine tools and workshop equipment.</li> <li>Above 80% accuracy achieved while undertaking different work with those demanded by the component/job.</li> <li>A high level of neatness and consistency in the finish.</li> <li>Minimal or no support in completing the project.</li> </ul>

Painter, Industrial; applies paint, varnish and similar materials to building and other structure. Chooses the right paint or finish for the surface to be covered taking in to account durability, ease of handling, method of application and customers' wishes. Prepares surface to be covered using scrappers, abrasives, and chemical removers so that paint adheres properly. Removes old coat by stripping, sanding, wire brushing, burning or watering and abrasive blasting. May wash surfaces and do trimming to remove dirt and grease from surfaces; fills holes and cracks; welds; sand-papers rough spots and brushes off dust. Applies primer on new surfaces for the finish coat. Mixes paint and matches colours by stirring together proper portions of pigments, oil, thinner etc. and other substances relying on knowledge of paint composition and colour harmony. Chooses the right paint applicator for each job, depending on the surface to be covered; characteristics of the finish and other factors. May use brush with soft tapered edge, or paint sprayer. Puts coating liquid in to spray gun tank, couples gun to air hose and adjusts air pressure valves and nozzles when working with sprayer.

## 4. GENERAL INFORMATION

Name of the Trade	INDUSTRIAL PAINTER
Trade Code	DGT/1078
NCO - 2015	7131.0300
NOS Covered	PCS/N5004, PCS/N5110, PCS/N5111, PCS/N5109, PCS/N9401, PCS/N9402, PCS/N9403, PCS/N9404, PCS/N9405, PCS/N9406, PCS/N9407, PCS/N9408, PCS/N9409, PCS/N9410, PCS/N9411, PCS/N9412, PCS/N9413, PCS/N9414, PCS/N9415, PCS/N9416, PCS/N9417, PCS/N9418, PCS/N9419, PCS/N9420
NSQF Level	Level-3
Duration of Craftsmen Training (Instructional Hours)	One Years (1200 hours + 150 hours OJT/Group Project)
Entry Qualification	Passed 10 <sup>th</sup> class examination or its equivalent
Minimum Age	14 years as on first day of academic session.
Eligibility for PwD	LD, CP, LC, DW, AA, LV, DEAF, HH, AUTISM, ID, SLD, MI
Unit Strength (No. Of Student)	24 (There is no separate provision of supernumerary seats)
Space Norms	80 Sq. m
Power Norms	2.5 KW
Instructors Qualification for	
(i) Industrial Painter Trade	B.Voc/Degree in Paint Technology/ Bachelor of fine arts from AICTE/UGC recognized Engineering College/ university with one year experience in the relevant field. OR 03 years Diploma in Paint technology/Painting from AICTE/ recognized board of technical education or relevant Advanced Diploma (Vocational) from DGT with two years' experience in the relevant field. OR NTC/NAC passed in the Trade of "Industrial Painter" with three years' experience in the relevant field. <u>Essential Qualification:</u> Relevant Regular / RPL variants of National Craft Instructor Certificate (NCIC) under DGT. Note: - Out of two Instructors required for the unit of 2(1+1), one must have Degree/Diploma and other must have NTC/NAC qualifications. However, both of them must possess NCIC in any of its variants.
(ii) Workshop Calculation &	B.Voc/Degree in Engineering from AICTE/UGC recognized

Science	Engineering College/ university with one-year experience in the
	relevant field.
	OR
	03 years Diploma in Engineering from AICTE/ recognized board of
	technical education or relevant Advanced Diploma (Vocational)
	from DGT with two years' experience in the relevant field.
	OR
	NTC/ NAC in any one of the engineering trades with three years'
	experience. Essential Qualification:
	National Craft Instructor Certificate (NCIC) in relevant trade
	OR
	NCIC in RoDA or any of its variants under DGT
(iii) Engineering Drawing	B.Voc/Degree in Engineering from AICTE/UGC recognized Engineering College/ university with one-year experience in the relevant field.
	OR
	03 years Diploma in Engineering from AICTE/ recognized board of
	technical education or relevant Advanced Diploma (Vocational) from DGT with two years' experience in the relevant field.
	OR
	NTC/ NAC in any of the engineering trades with three years
	experience.
	Essential Qualification:
	National Craft Instructor Certificate (NCIC) in relevant trade OR
	NCIC in RoDA / D'man (Mech /civil) or any of its variants under DGT.
(iv) Employability Skill	MBA/ BBA / Any Graduate/ Diploma in any discipline with Two
	years' experience with short term ToT Course in Employability
	Skills.
	(Must have studied English/ Communication Skills and Basic
	Computer at 12th / Diploma level and above)
	OR
	Existing Social Studies Instructors in ITIs with short term ToT
	Course in Employability Skills.
(v) Minimum Age for	21 Years
Instructor	
List of Tools and Equipment	As per Annexure – I

Learning outcomes are a reflection of total competencies of a trainee and assessment will be carried out as per the assessment criteria.

#### **5.1 LEARNING OUTCOMES**

- 1. Perform Marking, sawing, planning, Chiseling, Drilling following safety precautions. (NOS: PCS/N9401)
- 2. Make various types of joints for different frames (like- Screen frame, sign board, & hanging Paintings frames) (NOS: PCS/N9402)
- 3. Manufacture simple sheet metal items as per drawing and join them. (NOS: PCS/N9403)
- 4. Manufacture simple sheet metal items as per drawing and join them by soldering, brazing and riveting. (NOS: PCS/N9404)
- 5. Explain and make various pipe fittings. (NOS: PCS/N9405)
- 6. Join metal component by arc welding observing standard procedure. (NOS: PCS/N9406)
- 7. Cut and join metal component by gas (oxy-acetylene) (NOS: PCS/N9407)
- 8. Join metal components by riveting observing standard procedure. (NOS: PCS/N9408)
- 9. Prepare wooden surface using various techniques; decorate & make attractive wooden articles. (NOS: PCS/N5004)
- 10. Prepare different types of wooden surface (Like Plywood, MDF & low quality wood) & paint it. (NOS: PCS/N5004)
- 11. Process on pipes & pipe line painting with colour code. (NOS: PCS/N5110, PCS/N5111)
- 12. Demonstrate pipelines procedure & safety aspect. (NOS: PCS/N9409)
- 13. Perform Graphics-Stickers pasting, fixing, locking on wooden or metal surface. (NOS: PCS/N9410)
- 14. Demonstrate process of cleaning on metal surface for preventive coat. (NOS: PCS/N5110)
- 15. Demonstrate process of painting on metal surface for preventive coat. (NOS: PCS/N5111)
- Identify, replace and assemble different pneumatics and paint gun. [Different components – Compressor, Pressure Gauge, Filter Regulator. Valve for hose] (NOS: PCS/N9411)
- 17. Perform Spray Painting technique. (Spray Gun / hose handling, air & paint pressure controlling. (NOS: PCS/N9412)
- 18. Demonstrate operating system of spray booths, Oven, cleaning & their maintenance, application of sealant component on metallic joints. (NOS: PCS/N9413)
- 19. Perform aspect ratio mixing of paint, hardener & solvent. Measure Viscosity of paint. Operate the Spray painting system. (NOS: PCS/N5109)

- 20. Develop spray painting in Home appliances, Agricultural equipment's, Machines, Automotive Bodies etc. (NOS: PCS/N9414)
- 21. Remove dents & recover the damaged accidental area. Repaint & recover damaged area. Remedies of paint defects. (NOS: PCS/N9415)
- 22. Apply Finish special effects for Modern furniture. (NOS: PCS/N9416)
- 23. Apply Operating system of Powder coating technique. (NOS: PCS/N9417)
- 24. Perform Quality Testing for various paints & Painted films. (NOS: PCS/N9418)
- 25. Read and apply engineering drawing for different application in the field of work. (NOS: PCS/N9419)
- 26. Demonstrate basic mathematical concept and principles to perform practical operations. Understand and explain basic science in the field of study. (NOS: PCS/N9420)

F

	LEARNING OUTCOMES	ASSESSMENT CRITERIA
1.	Perform Marking, sawing,	Marking Practice on wood.
	planning, Chiselling, Drilling following safety	Apply holding & sawing practice on different size of wood.
		Work on teeth setting & sharpening of different saw.
	precautions.	Apply tenoning Half cut on wooden border.
	(NOS: PCS/N9401)	Make setting of planers & sharpening on plane blade.
		Do plane on different wooden surfaces.
		Do chiseling slots on thick wood.
		Drilling on wood with different drilling tools (Gimlet, Hand Drill,
		Portable elect. drilling machine.
2.	Makevarious types of joints	Make a simple lap joint.
	for different frames (like-	Make a simple mitred half lap joint.
	Screen frame, sign board, &	Make a simple Dovetail joint.
	hanging Paintings frames).	Apply Joint fitting with nails, screw, glue etc.
	(NOS: PCS/N9402)	
3.	Manufacture simple sheet	Marking practice of straight lines, circles, profiles and various
0.	metal items as per drawing	geometrical shapes.
	and join them.	Cutting practice of straight lines, circles, profiles and various
	(NOS: PCS/N9403)	geometrical shapes on sheets with snips.
		Marking out of simple development.
		Marking out for fold for joints.
4.	Manufacture simple sheet	Make the joint of hemming, form locked.
	metal items as per drawing	Make the joint of grooved and knocked up single hem.
	and join them by soldering,	Make the joint of straight and curved edges form double
	brazing and riveting.	hemming.
	(NOS: PCS/N9404)	Make cylindrical objects with joints.
5.		Identify & check different types of pipe.
	pipe fittings.	Do pipe cutting & threading
	(NOS: PCS/N9405)	Apply different types of pipe joint/ fitting of different materials
		& different diameter. (Use PVC pipe)
		Make joint/ fitting for rain water (Use PVC pipe)
		Make joint/ fitting for water pipe line (Use GI pipe)
		Make joint/ fitting for water pipe line (Use PVC pipe)
C	loin motal companent hy are	Identify different components (parts of are welding maching
0.	Join metal component by arc	Identify different components/parts of arc welding machine,
	welding observing standard	collect desired information and set each components/parts as per standard procedure.
	procedure.	l per stanuaru procedure.

(NOS: PCS/N9406)	Observe safety/ precaution during operation.
(1103.1.03/113400)	Select appropriate material & plan for arc welding
	Weld metal parts / mechanical components as per specification
	observing standard procedure.
	Check joined part portion to ascertain proper welding.
7. Cut and join metal	Identify different components/parts of Gas (oxy-acetylene)
component by gas (oxy-	machine, collect desired information and set each
acetylene)	components/parts as per standard procedure.
(NOS: PCS/N9407)	Observe safety/ precaution during operation.
(1003. PC3/109407)	
	Select appropriate material & plan for gas cutting & joining
	operation.
	Cut & join metal parts / mechanical components as per
	specification observing standard procedure.
	Check cut portion/ joined part to ascertain proper welding
9 Join motal comparate by	Mark and douglon various forms as not drawing using the st
8. Join metal components by	Mark and develop various forms as per drawing using sheet
riveting observing standard	metals.
procedure.	Prepare the job for lap and butt joint.
(NOS: PCS/N9408)	
9. Prepare wooden surface	Apply Cleaning, sanding, knotting, stooping, staining preparation
usingvarious techniques,	on wooden surface properly for polish.
decorate & make an	· · · ·
attractive wooden article.	Make & apply putty for varnishing & polishing.
	Apply polish on prepared wooden surface with cotton rags.
(NOS: PCS/N5004)	Apply Cleaning, sanding, knotting, stooping, staining preparation
	wooden surface properly for varnish.
	Apply varnish on prepared wooden surface with brush.
	Prepare wooden article & apply varnish with spray.
	Prepare wooden article & apply melamine or PU wooden finish
	with spray.
	Make a wooden top with thick layer of melamine polish.
10 Droporo different trace of	Dronoro woodon curfoco proportu for pointing
10. Prepare different types of	Prepare wooden surface properly for painting.
wooden surface (Like	Practice of applying wood primer by brush.
Plywood, MDF & low quality	Make a putty for wood finishing.
wood) & paint it.	Apply putty & prepare wooden surface properly.
(NOS: PCS/N5004)	Do paint wooden surface properly with brush
	Prepare & spray painting on different furniture take the all
	precautions.
11. Process on pipes & pipe line	Paint the GI pipe by brush.
painting with colour code.	Paint the sanitary pipe of building. Take & care self precaution&
(NOS: PCS/N5110,	safety.

PCS/N5111)	Paint the MS square & round pipe, take all precautions & safety while painting.
	Do Paint deferent pipe line with colour code as per ISI.
12. Demonstrate pipelines	Demonstrate knowledge of safety procedures in Industrial pipe
procedure & Safety aspect.	line painting
(NOS: PCS/N9409)	Identify colour code wise- Pipe lines, different types of valves.
13. Perform Graphics-Stickers	Do simple graphics of radium's or vinyl.
pasting, fixing, locking on	Selection of graphics properly and pest it on selected
wooden or metal surface.	(wooden/Metallic) surface evenly.
(NOS: PCS/N9410)	Use lacquer or varnish spray and coat layer of lamination.
14. Demonstrate process of	Do Scrap on corrode metal surface.
cleaning on metal surface for preventive coat.	Cleaning process of metal surface by wire brush or orbital wire brush.
(NOS: PCS/N5110)	Apply burn process on old paint from metal surface by blow lamp or gas flame.
	Apply dry sanding with help of emery paper/cloth.
	Apply wet sanding on old painted object.
	Clean the metal surface by Sander machine.
	Do level the different metal surface by portable hand grinder.
	Do degreasing process on metal surface.
	Apply de-rusting or pickling process on corrode metal.
	Observe practical of Different types of , Industrial Painting
	system by video.
15. Demonstrate process of painting on metal surface for	Prepare metal surface & apply ready primer on metal surface by brush.
preventive coat.	Apply enamel/ polyester putty or filler on primed surface.
(NOS: PCS/N5111)	Apply enamel paint on primed metal surface by brush.
	Prepare and paint metallic article by brush.
	Prepare & colour making for deep painting.
	Prepare article for deep painting. (Cleaning, rubbing, sanding.)
	Explain the Electro coat Deeping process & conveyor system
	with all safety.
16. Identify, replace and	Identify pneumatic components – Compressor, pressure gauge,
assemble different	Filter, Regulator, and Lubricator. Different types of valves.
pneumatics and paint gun.	Explain the safety procedures in spray systems and personal
[Different components–	Protective Equipment (PPE).
Compressor, Pressure	Maintenance, troubleshooting, and safety aspects of pneumatic
Gauge, Filter Regulator.	and Painting instruments.

Valve for hose] (NOS: PCS/N9411)	
<ul> <li>17. Perform Spray Painting technique. (Spray Gun / hose handling, air &amp; paint pressure controlling,) (NOS: PCS/N9412)</li> </ul>	Application of spray gun holding and stroke adjustment, Paint adjustment, air adjustment techniques. Spraying practice on the surface like as edges, corner, square, round & curved area.
18. Demonstrate operating system of spray booths, Oven, cleaning & their maintenance, application of sealant component on metallic joints. (NOS: PCS/N9413)	Use and apply of paint spray booth & maintenance, troubleshooting, safety aspects. Use &Operate Oven Setting, temperature & timing. Apply sealant on metallic joints.
<ul> <li>19. Perform aspect ratio mixing of paint, hardener&amp; solvent. Measure Viscosity of paint. Operate the Spray painting system. (NOS: PCS/N5109)</li> </ul>	Preparation of Paint mixing for spray painting.Measure the viscosity of paint.Spray Painting practice on ornamental objects, with deferent types of paints.Spraying metallic primer on metal surface.Apply Carpatch, Putty and Filler on metallic surface & preparation.Apply Surfacer on primed or putty finish surface.Spraying finish application for Top Coat. Use of enamel/ N.C. paints. (Or latest paints.)
20. Develop spray painting in Home appliances, Agricultural equipment's, Machines, Automotive Bodies etc. (NOS: PCS/N9414)	Prepare the surface of home appliances.Priming & surfacing process on home appliances.Apply finish undercoat & top coat on home appliances.Use enamel/ N.C./ P.U. paints- Solid/ Metallic/ Pearl/.Application of preparing machine surface.Priming & surfacing on machine.Application of finish undercoat & top coat on machine.Preparation of the tow wheeler body and spares surface.Priming & surfacing the Tow wheeler body and spares surface.Apply finish undercoat & top coat on Tow wheeler body and spares surface.Apply finish undercoat & top coat on Tow wheeler body and spares surface.Apply finish undercoat & top coat on Tow wheeler body and spares surface.Apply Graphic sticker on painted surface properly & apply lacquer coat evenly.Identify the parts of Electrostatic gun assembly & operate it

	Identify the parts of Airless gun assembly & Operate it carefully. Practice of Different types of Spray painting.
<ul><li>21. Remove dents &amp; recover the damaged accidental area. Repaint &amp; recover damaged area applying remedies of paint defects. (NOS: PCS/N9415)</li></ul>	<ul> <li>Dissemble essential damage parts, inspect &amp; mark denting aria.</li> <li>Choose &amp; decide process tools for denting.</li> <li>Removed dent on marked aria, apply essential method.</li> <li>Do sanding or burn on denting aria &amp; apply primer &amp; surface.</li> <li>Apply putty layer on spotted area evenly.</li> <li>Use wet sanding, level denting surface area, procedure of thin coat of Surfacer.</li> <li>Masking process on unwanted area properly.</li> <li>Match the shade Overlay proper equally on unmask aria.</li> <li>Unmasked the mask area carefully &amp; checkout properly &amp; touchup it by necessary process.</li> <li>Apply final coat rubbing and waxing process properly.</li> <li>Demonstrate of Paint defects &amp; its remedies.</li> <li>Check &amp; Find out different paint defects (run down, sagging, pin hole, orange peel, oil &amp; water spot, over/ dry spray, uncover, shade variation etc.)</li> <li>Mark the defected area, Decide Techniques &amp; apply remedies properly. Make Finished surface.</li> </ul>
22. Apply Finish special effects for Modern furniture. (NOS: PCS/N9416)	Application Process of Finish special effects on different furniture & different surface. (like as- colour gradations, multi tones applying, different textures, etc.)
23. Apply Operating system of Powder coating technique. (NOS: PCS/N9417)	Pretreatment& Clean the metallic article in chemical (degreasing, de-rusting, activation, phosphating, passivation & water rinsing as where required etc.) Procedure of powder coating on cleaned article & baking in oven. Apply appropriate temperature & timing.
24. Perform Quality Testing for various Paints & Painted films. (NOS: PCS/N9418)	Check and identify the Paint defects & its remedies. Testing the quality of paints & Painted surfaces by various testing method & instruments.
<ul><li>25. Read and apply engineering drawing for different application in the field of work.</li><li>(NOS: PCS/N9419)</li></ul>	Read & interpret the information on drawings and apply in executing practical work.Read & analyze the specification to ascertain the material requirement, tools and assembly/maintenance parameters.Encounter drawings with missing/unspecified key information and make own calculations to fill in missing

	dimension/parameters to carry out the work.
26. Demonstrate basic	Solve different mathematical problems
mathematical concept and principles to perform practical operations. Understand and explain basic science in the field of study. (NOS: PCS/N9420)	Explain concept of basic science related to the field of study

## 7. TRADE SYLLABUS

	SYLLABUS FOR INDUSTRIAL PAINTER TRADE					
	Duration – One Year					
Duration.	Reference Learning Outcome		Professional Skills (Trade Practical) With Indicative Hours	Professional Knowledge (Trade Theory)		
Professional Skill 84 Hrs; Professional Knowledge 15 Hrs	Perform Marking, sawing, planning, Chiseling, Drilling following safety precautions. (Mapped NOS: PCS/N9401)	11.	Introduction of trade skills and work application. (02hrs) Safety attitude development of the trainee by educating them to use personal protective equipment (PPE) and Material safety data sheet (MSDS). (04hrs) First-aid method and basic training. (02hrs) Safe disposal of waste materials like- cotton waste, waste paint and waste paint material etc.(02hrs) Hazard and non hazard identification and avoidance.
