

# GATE 2025 ES Feb 15 Memory Based Questions

1. Question asked from Zero Liquid Discharge Multi Evaporator
2. Question asked from Phi index from hyetograph
3. Question asked from ASP microbe growth rate
4. Question asked from M3 and S1 flow profile
5. Question asked from Gaussian chemical pollutant dispersion
6. Question asked from Converging diverging series
7. Question asked from Laplace transform
8. Question based on  $\lim_{x \rightarrow 0} \ln(1+x)/\sin x$
9. Question asked from ODE General equation
10. Question asked from Methane Hydrate
11. Question asked from Polar compound solubility
12. Question asked from Catabolism vs Anabolism
13. Question asked from Prokaryote and Eukaryote
