Q.5 (iii). Regulated Market

Regulated market is a wholesale market where buying and selling are regulated and controlled by the state government through the market committee.

Regulated market aims at the elimination of unhealthy and unscrupulous practices regarding charges and providing facilities to producers and sellers in the market. The poor standards of primary and secondary markets in agricultural market are cash transactions, short weights, excessive market charges, unauthorized deduction, and the absence of machinery to settle disputes between sellers and buyers. These defects and malpractices can be recovered by the establishment of Regulated market. According to the Bombay Agricultural Product Market Act-1939, this market is controlled. In this market mainly the trade of cereals, fruits, tobacco, cotton, groundnut, coconut, betel nut, potatoes and turmeric, etc. are controlled.
